R. H. BAKER,
Attorney at Law,
Dahlonega, Ga.

All legal business promptly attended to.

THE body gets its life from food properly digested. Headly digestion means pure blood for the body, but stomach troubles arise from carelessness in eating and stomach disorders upset the entire system. Improperly masticated food sours on the stomach, causing distending, pain, belching, flatulence, and when over-eating is persisted in the stomach becomes weakened and worn out and dyspepsia claims the victim.

Thedford's Black-Draught cures dyspepsia. It frees the stomach and bowels of congested matter and gives the stomach new life. The stomach is quickly invigorated and the natural elimination results in a good appetite, with the power to thoroughly digest food.

You can build up your stomach with this mild and natural remedy. Try Thedford's Black-Draught today. You can buy a package from your dealer for 25c. If he does not keep it, send the money to The Chattanooga Medicine Co., Chattanooga, Tenn., and a package will be mailed you.

THE DRAUGHT

How Tom Marshall Saved \$20.

The famous Thomas F. Marshall, of Kentucky, was trying a case before Judge Bush, a noted jurist of that commonwealth, and became guilty of contempt of court, says the Chicago Record-Herald. The Judge promptly fined Mr. Marshall \$10, which the orator as promptly paid.

Continuing his speech, Marshall again became guilty of contempt and was fined \$20. He had not had that much money about him, but had to pay at once, else go to jail. Marshall coolly looked up at the audience with the complacency that was peculiarly his and then addressed the judge.

"May it please the court," he said, "in looking over this assemblage of my fellow citizens I see no one whom I would so readily ask for a favor as your honor. Would the court kindly lend me \$20 where-with to pay this fine? I have not so much currency with me, and I am much disinclined to go to jail."

The judge turned to the clerk of the court and in his old man's voice that was changing to "childish treble" piped out:

"Mr. Clerk, scratch out that fine against Mr. Marshall! This commonwealth is better able to lose \$20 than I am."

The statistics show that bad cooking causes many of the divorces. Whiskey, we suppose, and our old friend "incompatibility of temper" are responsible for the rest. It may not be possible to cure an attack of incompatibility, but it is in reach of every woman to improve her cooking and thus save hubby from beating his spouse and making off to the grocery, says an exchange.

According to Nature, the total eclipse of the sun on Aug. 20 next will take place at a time when the number of spots on its face is about the maximum. It is only human that in such circumstances the sun should wear a veil.—London Punch.

That 58 Cents.

Two Run, Ga.,
July 24, 1905.

EDITOR NUGGET:

A statement in your last issue concerning my being sued for 58 cents; from the reading of it, one would conclude that I was judged. The squire did not judge me, as the docket will show that no trial was ever had. Lance had sawed some lumber for me, amounting to 58 cents. The contract between us was that I should deliver him a saw log in payment of the debt, and he was to saw the log, which was to cut as many feet for him as mine cut for me. When I delivered the log, according to contract, Lance claimed that I was to pay the money. This I disputed. He got mad and offered to fight me, while I was yet in the road, and ordered me not to unload the log on the yard, this I did any way. He placed the account in the hands of the squire for collection. When that officer asked for the amount, I decided to make an effort to hold Lance to the contract, and with this in view, I accepted service. On court day the officer was disqualified, and the J. P. could not be had. Rather than file a plea and be bothered attending court on such a small amount, I proposed that if Lance would saw the log I had taken him, and take half the pay out of my part of the log, I would pay him the remainder in money. Thus a compromise was effected. I also paid 45 cents, the cost of issuing the summons. Lance had been trying to baffle me all along in the payment of the debt, and when he found I was going to fulfill the contract to the letter, then he thought he would create a sensation by suing me for such a small amount.

He made his acknowledgements to Hightower church for cursing me. I presume, Mr. Editor, that your informant did not know the contract, or else wanted to stigmatize my reputation by holding me up before the public as a man so dishonest that parties dealing with me had to resort to the law to collect their debts, and that I was so degraded in principle that I would not pay 58 cents. Is it reasonable that I would haul a log 8 miles to pay a debt when it was not according to law?

J. B. SIMMONS.

When it Will Rain.

The coming state of the weather can be foretold by various signs with a surprising amount of accuracy. The following rules are laid down by an expert:

"Does work with redoubled energy just before rain.

"If the flies are unusually persistent, either in the house or around cattle, there is rain in the air.

"Squirrels store a large supply of nuts, the husks of corn are unusually thick, and the buds of certain trees have a framer protecting coat if a severe winter is at hand.

"If the poplars and aspen leaves turn up the under side, rain will soon follow.

"Last, but not least, persons who suffer from rheumatism can always tell by their feelings when a storm is approaching, and in this method of prophesying many folk of today are as firm believers as were our forefathers."

The man who was ordered by a Brooklyn judge to kiss his wife every day in the year, is making more fuss about it than might be expected if some "other man" has been assigned to the task.—Ex.

A Weird Tale.

This strange experience happened some 15 years ago to a very intimate friend of mine in Gibraltar bay, not far from where he often lives. I had the story from his own lips.

When the telephatic experience occurred he had not been long in sunny Spain. Behind him, in bonnie Scotland, he had left his young bride till he should get settled down in his new clime and occupation. He was going one day about his work, as usual, buoyed up with the prospect of meeting soon his loved one (for she was then on her way out to him, on board a steamer which must now be skirting the northern coasts of Spain), when suddenly he experienced a strange sensation, heard his wife's voice waiting, and saw as he thought, her form all dripping and wet.

Instantly he felt as if some terrible calamity had happened. And sure enough, in due time the telegraph brought the sad news that, at the very hour of his strange experience, the ship in which his wife was outward bound had struck upon the rocks, hundreds of miles away, and all on board had perished.

How, almost frantic with grief, my esteemed friend, accompanied by another acquaintance, went north and searched for days for his wife's body amongst those washed ashore by recurring tides on that Spanish coast is apart from our purpose. But he told me all with his own lips.

I have never been a believer in spiritualism, have never seen anything in table-rapping and such-like, except to laugh at; yet I think the correct attitude to take up to a well-authenticated telephatic experience as distinct from spiritualistic humping, is Hamlet's in his conversation with Horatio: "O day and night, but this is wondrous strange!"

"And therefore as a stranger give it welcome.

There are more things in heaven and earth, Horatio, Than are dreamt of in your philosophy."

—Correspondent of the Weekly Scotsman.

Canned Tomatoes.

Gather tomatoes before they are soft and dip them in boiling water to remove the skins. If you do not care to can them whole, cut them up and fill the porcelain Kettle. Let them come to a boil and then boil for about five minutes hard. Fill the glass jars as full as they will hold and screw on the top while the tomatoes are boiling hot and set them in a cool place. The next day go over them and tighten the tops and put them in a dark closet or press. If the jars are perfectly clean and you are careful to have them screwed tight they will keep always and are far better than the bought ones.

Canned Corn.

Gather the corn when it is very tender, cut it carefully from the cob and weigh it. To 10 pounds of corn use one ounce of tartaric acid. Put the corn into the kettle and cover it with water. Let it boil for 10 minutes and then add the tartaric acid. Let it stay on three minutes, then fill the jars very full and while it is yet boiling screw the tops on. Screw tight and put into a dark place. When you use this be sure and soak it for an hour in clear cold water. Pour the water off and you can hardly tell it from the corn fresh out of the garden.

Heart Weakness.

Dr. Miles' Heart Cure has made many hearts well after they have been pronounced hopeless. It has completely cured thousands, and will almost invariably cure or benefit every case of heart disease.

Short breath, pain around heart, palpitation, fluttering, dizzy, fainting and smothering spells should not be neglected. Take Dr. Miles' Heart Cure and see how quick you will be relieved.

It cannot make a new heart, but will restore a sick one by strengthening the heart nerves and muscles, relieving the unnatural strain, and restoring its vitality.

"I had a very bad case of heart trouble. For six months I could not walk, and for six months I could not sleep. I was in a constant state of nervousness, and I had to get up every night and lie down. I had tried many remedies, but nothing would do me any good. I had heard of Dr. Miles' Heart Cure, and I bought a bottle of it. I took it as directed, and in a few days I began to feel better. I was able to sleep at night, and I was able to walk. I took a second bottle, and in a few days I was completely cured. I feel like a new man now, and I can do all the work I want to do."—R. B. McCall, Frost, Ohio.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit you. If it fails he will refund your money. Miles Medical Co., Elkhart, Ind.

A Pheasant Farm.

Mrs. McMillan, wife of United States Senator McMillan, of Michigan, has a pheasant farm at her summer home, near Magnolia, Mass. The pheasants as they strut about are greatly admired by visitors, seemingly very proud of their golden beauty as they march on parade across the gravel circle in front of the veranda of the birds. They have a man servant or two of their own, and he is responsible for them. These attendants came from the native country of the birds and such is their knowledge that very few, comparatively, of the birds have been lost on account of American climate changes.

THE NUGGET.

DAHLONEGA, AUGUST 4, 1905.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

SUBSCRIPTION PRICE:

\$1.00 - 12 Months.
50 cts. - 6 Months.
30 cts. - 3 Months.

After a stubborn fight the Japs captured another town last week.

Hall county grand jury was satisfied with its present system of working roads.

H. A. Rucker, colored, has been re-appointed United States collector of Georgia.

A case of yellow fever developed at Tampa, Fla., last week. It was an Italian from New Orleans.

The grand-daddy rattlesnake was killed near Bainbridge one day last week. It was 14 1/2 foot long and 15 inches in circumference.

Jack Done, who was sent to the asylum from Rome, Ga., after killing Zach Hall, was recently returned as cured and now he has been sentenced to death on the gallows August the 25th.

Editor Gray was fined \$10.75 in Atlanta last week for hitting Representative Revell. Mr. Revell would have been bound over to the Superior court for carrying a pistol had he not been a member of the legislature.

Mon. Hoke Smith says he is third owner of the Piedmont Hotel bar room but gives his profits to "charity." Whiskey can make paupers enough, and wretchedness enough in homes, to need charity.—Marietta Journal.

Estill buttons are being distributed in some parts of the state now by one of the Colonel's friends, and later on, when the proper time comes for the gubernatorial campaign to open, you will hear from Mr. Estill.

Mr. Felder's reformatory bill passed the house last week, carrying with it an appropriation of \$10,000. If it passes the senate children will not have to be mixed up with tough criminals of all kinds. A site for the reformatory of 400 acres has been offered in Jackson county by Mr. Hardeman, one of the members of the house.

In connection with the serious yellow fever conditions in New Orleans, says the Brunswick Journal, attention of the people throughout the country is being called to the fact, recently discovered by scientists, that the only means by which the yellow fever germ is carried into a locality is by the bite of a certain kind of mosquito. These mosquitoes breed in and around stagnant water. There is however a preventative of the propagation of this insect, namely the pouring of kerosene oil on all water in cisterns, wells, etc., which will not injure the water in the least.

On Thursday of last week, Alf Moore, the negro accomplice in the murder of the Carter children, was found guilty at Valdosta with no recommendation. Moore is the fourth person convicted in connection with this horrible crime. Jesse and Leonard Rawlings were convicted of murder the previous day, the latter being recommended to mercy and will be given a life sentence. Jesse Rawlings will be hanged. According to the evidence he shot and killed one of the children. Leonard Rawlings was present and had a gun, but did not fire it. On July 21, Milford Rawlings was convicted of murder in the first degree. J. G. Rawlings, the alleged instigator, was found guilty on Saturday without recommendation. Frank Turner, a negro preacher, was the next one put on trial, who was also found guilty. Rawlings and his two oldest sons hang on the 15th of September, and the other parties go to the penitentiary for life.

Mining News.

The foundation of the Singleton mill is ready for the batteries.

Some natives commenced placer mining down at the Hand this week.

We have never known a mine run on what the operator called "scientific principles" that didn't burst.

Mr. John Redmond informs us that he finished up the dredge for Mr. Blow in White county on the 15th ult., and it will be ready for operation as soon as the pump is received.

Mr. Bainbridge informs us that the clean up from 33 tons of ore at the Barlow recently was much better than he expected. The richness of this mine does not surprise the natives.

Mr. D. M. Grizzle is having some mining done on his property near the college. Several large fine nuggets have been found on it and he is having a tunnel cut to see if he can't strike the vein.

Down at the McAfee-Lind a tunnel is being driven to a valuable vein already discovered so the ore can be stowed out, enabling it to be conveyed to the mill and handled much cheaper than by a shaft.

The prospectors are making some fine shows on the Bunker Hill property. While working the other day for a vein four were struck, proving the property to be much more valuable than was expected.

The attention of the stockholders of the lower Etowah or Josephine mine is directed to a notice addressed to them elsewhere in this issue by Mr. C. C. Pugh, of Des Moines, Iowa. Mr. Pugh desires to unravel the mystery about the management of this mine.

We understand that Mr. Rogers, of the Battle Branch mine, is going to work on a large scale. Fourteen new hands were added to his list last Monday, and we learn that it is his intention to build two stamp mills. One to be put up at the mouth of the cut on one side of the ridge and the second one on the other side.

For some time the McDonald Bros. have been preparing fluming so as to be able to get water on the cut down at the Lockhart mine, which was intended to be completed by the middle of the week. Some changes have also been made at the mill and we guess that it is moving by this time. The tests made on the vein in the open cut shows up well enough to assure them that they have a good thing.

Several years ago Mr. W. C. Thomas dreamed that he found a very rich gold bearing vein down in Auraria district. It came to pass. On Saturday night Mr. Thomas had a similar dream about the Fishtrap property where he has been engaged for some time. So this week the miner has been putting in extra time, expecting to strike that rich vein every moment, and we hope that he will not be disappointed.

The incorporation of the Southern Power & Milling Company, a newly chartered mining company, met on last Friday morning at the office of W. P. Price, Sr. All the incorporators were present or represented by proxy—a majority being present. The charter was accepted and a board of directors were elected. The board of directors elected the following officers to serve until their successors are elected, to wit: Craig R. Arnold, president; W. J. Haerther, vice president; Joseph S. Von Neida, treasurer; Edward Legg, secretary. The next meeting of the board will be held at an early day, when business operations will begin in earnest. Deals to valuable mining lands in White and Lumpkin counties are being conveyed to the company and plans are made for dams, power plants, mills, etc.

Mr. Wash Satterfield of Dahlonega, will go down and take charge of the Etowah mill for Mr. Arnold. Mr. Satterfield has the reputation of being one of the best mill men of this section and Mr. Arnold is very fortunate in securing his services.

Mr. Satterfield has been at the Crown Mountain mill a long time and never failed to save practically all the gold when he was furnished with ore to run it. Another thing he does is to protect the interests of his employer as much as possible. As a proof of this last week during the general clean up at Crown Mountain mine, after cleaning the gold from the silver plates with a suitable piece of rubber as is the custom, he was ordered by the superintendent to scrape them, and not wishing to ruin the plates unless by order of either Gen. Warner or Mr. Rodgers, the millman stepped down and out, because he wanted to leave the plates in as good fix as he found them.

In reply to further particulars about Crown Mountain mine and what was done by the directors at their recent meeting more fully, our reply is this: At this meeting, owing to the unsatisfactory management it was decided to shut down until a stockholders meeting could be held, with the intention of reorganizing and starting out under a systematic method. A resolution was passed appointing Mr. Howard Stanton, the company's bookkeeper at Dahlonega, to make an inventory of everything and take the gold at the clean up, ordered made, besides directing him to sell a portion of the surplus pipe and other things about the mine not needed hereafter and take the money and pay off all the labor indebtedness against the company. So this work commenced at once, not only tearing up surplus pipe lines and preparing to haul them off to sell, but we understand they are removing much of that and some other things that will have to be bought and replaced before the mine can be worked any more, receiving just a little over half price. Then on Sunday after the clean up was finished the gold was taken down to Gainesville and turned over to Gen. Warner. Some of the hands learning this and not being satisfied with the movement filed a laborer's lien to-wit: Messrs. Clodfellow, William Rice, Wash Satterfield, Jess Adams, Charlie Wood, including Superintendent Crisson, all making a total of \$903.87. Gen. Warner afterwards sent back money enough to pay off the labor debt for May only. The suspension of this mine under such poor management is no surprise to us. No business can be run with success without some business methods. The idea of digging up ore and trying to supply a sixty stamp mill with one mule, pulling it a distance of a quarter of a mile. And last but not least, sinking a 8x16 foot shaft through hard rock near ninety feet deep by hand drilling, when an air compressor was in operation and a suitable machine laying idle on the property. Do you wonder at the mine stopping? We hope to see the company thoroughly organized with the water on the very top of the hill, washing the ore direct to the mill in a sufficient quantity to keep it running regularly. Then Crown Mountain will begin to yield gold in paying quantities.

Out of sixty-six digests sent in to the controller up to last Saturday, only two counties, Taliaferro and Echols fell behind last year. All the others increased.

Mr. Felder's bill to make burglary a hanging crime in Georgia, ought to pass the legislature.

Mon. Joe Hill Hall has decided not to make the race for governor, and has declared his support for Judge Freeman, of Coweta.

Representative Williams, of Lawrence, wants members of the legislature to receive \$7.00 per day. What's the use for a change when there are numbers of competent men in every county of Georgia anxious to take the job at the present price—\$4.00?

Some of B. R. Meaders & Sons Prices.

Did you ever stop to think what you save by getting for four cents what the people pay five cents for? One cent saved in a five cent trade makes you save twenty cents on every dollar spent. If you get one dollar per day for your work and save one cent in five, it amounts to getting one dollar and twenty cents per day. If you get one dollar per day for your work and lose one cent on every five cents spent, you only get eighty cents for the work. Count 312 days in a year, 20c per day saved, makes you receive for your work \$374.40, but do not take the advantage of that one cent in five saved and you only receive \$249.60, losing in one year, by not being a wise, close buyer, one hundred, twenty-four dollars and eighty cents, or almost five months time at \$1 per day. So one cent saved on one dozen jar rubbers is a greater thing than at first appears.

We not only offer a few items at a reduced price as leaders, but through our whole line we make the same per cent reduction that is made on the small articles. A few of the small articles:

Fruit jar rubbers 4c doz. Brass shoe tacks 4c, 8 papers for 10c. 5c mouse trap 3c. 6-cent calico at 5 and 5 1/2 cents. 10c buggy whips at 8 cents, 15c buggy whips at 10c. 10c lard at 8c. 7 1/2c lard at 5 1/2c. 5c cup 2c. \$1.25 dress shirt 95c. \$3.00 mantle clock \$2.25. \$2.50 8 day clock \$1.93. 7 balls white thread 5c. We save you from 10 to 50c per pair on shoes and have a big stock for you to pick from. We sell at the above prices to everybody whether you request the lowest price, or whether you send your child to trade for you. B. R. MEADERS & SONS.

TO ETOWAH STOCKHOLDERS.

Will Stockholders in the Etowah property in Lumpkin county, Georgia, please send me their name, address and number of shares held by each? I am trying to evolve a plan by which we can unite and have an examination as to the affairs of the company, and also try to save our investment from ultimate loss. I have legal talent looking it up now. Send any suggestion you may have to offer. C. C. PUGH, Manhattan Bldg., Des Moines, Iowa.

WANTED mine hands, Drillers, Chuckers and Muckers, both for day work and contract work, at Paytan, Ala. Apply to O. A. Smith, 27 Wallon St., Atlanta, Ga. Yours truly, THE ALABAMA PYrites CO. O. A. SMITH, Pres.

Since Wright was shot down in Rome, Ga., the other day by V. T. Sanford, who claimed that he had ruined his home, all eyes have been turned towards that city and the daily papers have contained much sensational news about the unfortunate affair.

Sanford claims that Wright and his wife had registered as man and wife more than once at a hotel in Atlanta. The proprietor of this hotel was summoned as a witness last week, who claims after seeing Wright's picture that he is the same man who registered at his house as A. A. Jones and wife, of Chattanooga, and Mrs. Sanford is the same woman. Since then Mrs. Sanford has filed a suit against her husband for a divorce, claiming that, although they lived in the same house all the time, had separated on the first day of last June, alleging that her husband had been untrue to her, and at the same time, furnishing several letters for publication from "Fannie Price," a well known character residing on Collins street in Atlanta, who drew on him for money, and judging from his correspondence, she got it. That was while Sanford was tax collector. The trial commenced last Monday and is creating much interest.

The house has voted \$1,000,000 for the common schools this year.

A bill is before the legislature to exempt minors from road duty.

Augusta, in order to prevent the yellow fever being brought into the city, has quarantined against all imported fruits and vegetables.

Do you want any beautiful mining views, or a large photograph of Cane creek falls, or the court house at Dahlonega? If so, send us 25 cents and postage for same.

The pupils of Hall county's school, have a spelling match at Gainesville on the second Saturday in August. Those of Lumpkin ought to have one too. It would be beneficial to all concerned.

GEORGIA STATE FAIR, Atlanta, Oct. 9th to 21st.

Greatest ever held—One fare for round trip, 20 county exhibits—Mammoth agricultural displays. Great variety agricultural implements, machinery, vehicles, etc. Finest Live Stock and Poultry Show ever seen in the South. Prizes for woman's work and for boys and girls. Sensational attractions. Racing every day. \$22,500 in premiums.

Local News.

Any one desiring to furnish fifty cords of green wood, during August, to the college, will confer with R. C. Meadors at once.

The colored people's union meeting down at Pigeon Roost was largely attended last Saturday and Sunday with no disturbance whatever.

Dr. Glenn informs us that he has reasons to believe that the fall session of the college here will begin with an attendance of at least 250 boys.

Many people attended the all day singing up at Yahoola last Sunday. There was no drinking or any bad conduct of any kind, making it an occasion of much pleasure by all present.

There will be a meeting of the Gus Boyd Chapter N. D. C., Tuesday, Aug. 8th, afternoon at 4 o'clock promptly, at the residence of Mrs. W. P. Price, Sr. Every member is expected, as business of vast importance will be transacted.

It is very clever in the authorities to allow Mr. Shultz to suspend his school at Yahoola until he can return from the legislature to finish out the term, but the children who may run over school age during the time will lose this much free education.

Some of our citizens who were dissatisfied with the wages here at from 80 cents to one dollar per day, went down to Gainesville to get rich fast. Instead of finding a bag of gold at the end of the rainbow they could only get sixty cents per day, causing them to return.

A man was in town this week wanting to make out a claim for a pauper's pension, who only a year ago refused to take nine hundred dollars for his land. This is one reason why he couldn't get any one to swear that he was a pauper and destitute. A man that will give away his property in order to draw a pension is a very poor citizen, yet some of them do it.

The Rowland Lumber Company means business. It commenced building a dam last Tuesday at the Abercrombie old place in this county, across the Hightower river, near the Blue Ridge, for the purpose of floating its logs down the stream to some convenient point below, near the railroad, where they will be sawed up and the lumber shipped north. Thirty-six hands began with the work.

Prof. John F. O'Byrne, who was recently elected to the chair of Electrical and Mining Engineering of the N. G. A. College, at this place, arrived in the city last Sunday afternoon. The Professor comes from Cripple Creek, Col., which is about nine thousand feet above Dahlonega. This department has just been added to the college, and will be of much interest to this institution. We extend to the gentleman in charge a most cordial welcome here.

On Friday afternoon at about 4 o'clock Dahlonega was visited by a rain, and hail storm accompanied by the strongest wind ever known by us. It came from the northwest and when approaching roared so loud as to attract the attention of our citizens, causing them to believe that a full grown cyclone was headed in this direction. Most of them sought as safe places as they had time to reach. Those having tunnels about their premises were soon in them with all their children. The storm only lasted a few minutes, and when it was over our citizens were glad to learn that nothing nor nobody had been hurt. Some of the shade and fruit trees had been damaged and destroyed, and one good size locust blew down on Mr. Charlie McAdams house, occupied by Geo. Sissum, slightly crushing in the top of the roof. We were just in the lower edge of the storm. A mile above Dahlonega, on the Clarksville road, the gale was heavy, doing some damage to the crops and forests in places.

Court convenes at Dawsonville next Monday and Dahlonega will be represented by most of her legal talent.

Judge J. C. Brittain sold his house and lot in Dahlonega, near Dr. Howards, last Monday to B. R. Meadors & Sons.

Hon. Carl Shultz was up in Lumpkin again last Saturday, while there was nothing but local matters before the legislature.

Your attention is directed to the advertisement of the Great Lewis & Clark Exposition, to be found on the fourth page of this issue.

Any one desiring to board students this fall will please notify Dr. Glenn, by mail or otherwise, at once stating the number and price wanted. 2t.

It is said that two white females fell out and had a right lively fight Monday night up on Cranes Hill, on account of both having fallen in love with the same young man.

Mr. John H. Moore has been spending this week down in Dawson county, at his father-in-law's, Mr. McClure, whose daughter has typhoid fever. She is slowly recovering.

Porter Springs is very much like a city now. More than one hundred visitors are enjoying themselves at this great summer resort. Twenty-four arrived there Tuesday last.

Last Tuesday Mayor Baker suspended the sentence of John Forrest, who was working out a sentence of two months on the streets. He had worked well for thirty days and will not have to put in the other time if he behaves good.

It's right funny about those two visitors from Atlanta this week passing off for lawyers while in Gainesville on their way to Dahlonega. When the teamster came after them it was some time before he found them, because there had been no such lawyers as he described here.

Mrs. Elizabeth Adams of Lumpkin county, who failed to receive her pension when the others were sent off, on account of an oversight until the money was all exhausted, was made happy this week when she was notified by Judge Evans that her check had been received at his office.

Col. John Davis, a prominent lawyer of Hiwassee, Ga., was over to Dahlonega on business last Monday for awhile. He is on a land deal with Mr. Ashley, who he met here for a gentleman he represents in Atlanta. The number of acres is sixteen hundred, all situated in Lumpkin and Dawson counties.

We are told that there is a fellow living down near Auraria Baptist church, who removes his well bucket every meeting day to keep those attending church from getting water. Water must be very scarce in it, else he wants to make all the people his enemies so that he can get the benefit of their prayers according to the instruction of the bible. But the question is, how many do this now? When the bible was written it was not believed then that there would ever be a man of this disposition in the world. However, the church is having a well dug now, convenient for all who attend.

Marshal Grizzle and Collector Bash made a trip to an illicit distillery up in Chestatee district the other day, but before they reached their destination the proprietor had pulled out and carried everything off except a few tubs. These tubs were all burned by the officers. Deputy collectors receive a salary and mileage, and this one lives in Savannah, Ga., which will be pretty expensive vessels to the government on account of the long distance the collector had to travel. That is, if he gets mileage for the entire trip. Since then we are informed that the blockader was trying to make some whiskey and it being new to him he burnt the whiskey so that it will not even do for meeting purposes, and came near ruining the still.

Several parties left this county last week to work on the railroad some where down about Acworth, Ga.

Mr. Ben. Gaillard, of Gainesville, came up last week and spent several days here with his parents and friends.

Service will begin on the route from Murryville, in Hall, on through the edge of Lumpkin, via. Wahoo to White county, on the first of September.

We are going to make a revision of our subscription list again. If your time is out and you wish to continue reading THE NUGGET it will be to your interest to send in a little remittance.

Some young men were bragging the other day about beating a mining company out of at least a month's time. What's the difference in this and taking the gold from their mill plates or mine? It is wrong, and no such persons will keep a job long.

Our friend, Mr. Bill Woody, came to town all rigged up last Saturday, wearing the first neck tie we ever saw him in charge of. We wouldn't be surprised to learn later that Bill has his eye on some pretty damsel, and in the course of time the ordinary will be handed \$1.50.

We understand that Mr. W. J. Bart, of Bortshoro, is engaged and will soon wed a lady residing either in Texas or California. Mr. Blackburn commenced painting his residence last Monday. Mr. Bart is full of vim and energy and believes in improving, be he either single or married.

Judge Evans will fix the amount for each person liable for road duty in Lumpkin county at \$2.00 or six days work for the first year. In a year or two it may be less. The overseers for each district, under the new law, will be appointed next Monday. Each of whom will have to make a bond for the faithful performance of his duties.

Fridays mail brought the news to Mr. C. M. Moore that his son Charlie, was very sick down at Milner, Ga., where he has been in the employ of Mr. W. M. Rice for some time. Mr. Moore left that night for Milner and was by the bedside of his son the next day. We are glad to state that Charlie is better and will soon be all right.

Some of our business men can't help complaining when their occupations become dull. There are dull seasons in every man's business. Suppose farmers grumbled when nothing is coming in? They would not have time to talk about anything else during over half their time, and those of them only making enough for home consumption would be busy talking of hard times all the year round.

Concerning Mr. Jephtha Cochran not getting his paper regularly out at Randa, the postmaster writes us as follows: "Mr. Cochran sends for his papers by other parties. There were one of his papers found in the road where some one had lost it a few days ago. I guess his neighbors keeps the papers and read them. It is not my place to go round and deliver the mail, and am not responsible for same when they lose it on the way." So it will be seen by the above that it is not the postmaster's fault at Randa. Mr. Cochran should not send unreliable parties after his mail.

We are told that Columbus Peck borrowed his uncle's buggy over in Shoal Creek district recently to go to Mt. Vernon church to meeting. He afterwards took his girl home. She had been to the store with a satchel of eggs, which she placed in the buggy. The moments passed by so pleasantly that the satchel was not thought of by the happy couple when the girl's home was reached and it was carried to the young man's uncles in the buggy. When the owner went to examine the buggy after the boy had left, he discovered the satchel, and thinking probably that it contained an infernal machine, was afraid to touch it.

Fodder got down to \$1.25 here last week.

What has become of our Auraria correspondent?

Persons wanting shingles should go or write to Hutcheson Bros., Freda, Ga.

While in Dahlonega last Saturday, Mr. Turner Quillian, of Hall county, reported the crops in his section very good.

If you need a two-horse wagon, call on A. J. Anderson, Wier, Ga. They are made from home growth timber and ready for hard service.

Most of the industrious ladies are engaged now in canning fruit and making jellies, which are much better and purer than some of the jellies shipped here.

A few days ago an illicit distillery was destroyed up in White county, near R. W. Barrets premises. Last week he was brought in and bound over by Com. Baker.

Mrs. Austin and Miss Mary Bell, two daughters of Mr. Geo. Bell, formerly of Lumpkin county, but now of Birmingham, Ala., are up on a visit to their relatives.

The photographs of the fiddlers' convention and picnic are going like hot cakes. Call and get a supply at the gallery. You will see hundreds of your friends in them.

There will be a box supper given at the Ashley school house on the second Saturday in next month, the proceeds of which will go towards the purchasing of more books for the use of the school.

Mr. Wm. England spent a few days in Gainesville last week with his two sons who are at work in that city. Mr. England is raising a good set of boys, and he has a cause of feeling proud of them.

Mr. Kemner Hendrix, of Ridville, Ga., was among the visitors to Dahlonega last week. Mr. Hendrix is an ex-representative of that county, and a gentleman of much prominence. He was the guest of Mr. B. R. Meadors while here.

U. S. Deputy Collector Bash, of Savannah, Ga., has been here since our last issue, paying some of the blockaders of this section his first visit. Mr. Bash is a Jew and will no doubt be able to clothe any of the moonshiners who need attention.

Mr. Joe Martin, of Hall county, was in Dahlonega with twenty-five bushels of fine Elberta peaches, all nicely catted, which sold like hot cakes at an old time muster, last Friday, making the second load he has brought to Dahlonega this year.

Mr. Barney Walker passed through Dahlonega one day last week on his return from Gainesville all loaded down with smiles. The reason was because he was sitting by his intended bride. He stopped long enough to procure the license for Miss May Lackey, and as soon as they reached Yahoola district were married.

Some of the surveyors, who have been here for a month or two, completed their work last week, and have returned to their homes. They have been over every pig trail for several miles around Dahlonega and we judge that the mineral map of this county will prove of interest when finished.

The Signal stated last week that the Ward light occurred on the picnic ground. We regret this incorrect statement very much. The row occurred near the Mahew place, away off from the picnic ground late in the afternoon, long after the picnic was over. There was no disturbance of any kind during the day's program at the park.

Mr. B. T. Willingham, of Ball Ground, Ga., paid our office a pleasant call last Friday, in company with Mr. J. E. Tate. By the way, Mr. Willingham deals in monuments and tombstones, as you will observe from a notice elsewhere in THE NUGGET. If you need anything in this line it will be to your interest to drop him a note.

The house has given the N. G. A. College \$10,500.

Mr. N. P. Riddell, of Auraria, was in the city awhile last Tuesday, accompanied by his father, Mr. J. M. Riddell.

Dr. Glenn has been spending the most of his time in Atlanta during the present session of the legislature looking after the interest of the N. G. A. College.

That married couple had a happy re-union beyond the Consolidated hotel the other night. Had he broke his arm or leg when he fell off into a pit what would he have told his wife?

Up to Wednesday 340 cases of yellow fever were reported at New Orleans and 68 deaths. Fever has also developed at Montgomery, Ala., and at Shreveport, La. Both Columbus and Bainbridge, Ga., have quarantined against refugees.

We see from a Gainesville special in the Atlanta Journal where "Boy" Thomas, formerly of Dahlonega but now of that city, has found some gold ore near the Etowah river, said to be worth \$50 per ton, and the vein is twelve feet across and a mile and a half long. Pretty big, rich, long vein!

More inquiries have been made by railroaders within the past few days, from some of Dahlonega's citizens about the road that is started from Gainesville. Those interested, wish to extend the Gainesville Midland on up to Dahlonega. This is very good, but we prefer the one spoken of from Atlanta.

When Mr. H. F. Anderson died the other day it made five persons who have passed away within the last three years in this county owning adjoining farms, to-wit: Wm. Avery, Polk Head, Joseph Patton and John Cam. They had all lived out their three score years and ten but one. All of their wives are still living.

Billie Davis and Bob Daniels had a fight about something, on Wednesday morning. Bob threw a shovel and hatchet at Billie. Then Billie, after casting a stone at Bob, caught him and gave his hair a jerk, causing Bob to scream like a panther. They were fined \$3.00 each, and Bob is working his 30 days out on the streets.

Mr. J. C. Donaghue, a gentleman whose address is unknown to us, arrived in our city last Tuesday, who may remain here several days. He is making a private map of Lumpkin and some of the adjoining counties, but won't tell for who or for what purpose, except that he wants to know the resources and export and import of those he visits.

Mr. J. M. Ashley called upon Ordinary Evans this week and told him if he would make a good road to the Hall county line that he would put on a couple of automobiles—one for freight and the other for passengers—and make two trips a day down to the city of Gainesville in an hour and a half. The Judge is going to make all the roads good and the time may be short when pleasure seekers will be riding in automobiles all over this country.

The storm of last Friday caught Uncle Dick Wheelchel and Rev. Mr. Taylor sitting out in the porch of the formers house. At the first gust of wind both were up and making their way to the hall door. Mr. Taylor being much the youngest he out ran Uncle Dick and was soon on the inside, closing the door and holding it with all his strength, while Uncle Dick was on the outside pushing, knocking and yelling for entrance. And there Uncle Dick held to the knob to keep from being blown away while it rained and hailed, looking as if everything would be swept away, until the storm ceased. Both of these good men are prepared to meet the Great Ruler in the beautiful city not made with hands, but they preferred remaining where they are at, just like ye editor, even if we are not supplied with a harp having a thousand strings and destitute of streets paved with gold.

B. Robinson, of San Francisco, was among the visitors here this week.

Cris McGuire liking Dahlonega better than Atlanta caused him to return this week.

Mrs. E. D. Norris, of Washington City, is visiting her parents at this place—Mr. and Mrs. A. F. Stow.

Mr. J. F. Moore's two story, eight-room dwelling, near the Nugget office, is going to be a real nice and comfortable one, with its ten-foot hall.

The many friends here of Rev. A. F. Norton, were glad to see him in our city this week. He now lives at Duluth, Ga., and was on his way to White county.

Hon. W. H. Johnson, U. S. marshal for the Northern District of Georgia, spent several days in Dahlonega this week, together with his wife, as the guests of Dr. Glenn.

During Judge Evan's recent visit to Gainesville, he purchased about three hundred dollars worth of tools to be used in working the public roads. These tools are being received now.

Postmaster Tate has been informed that an inspector will be here on the 8th to look over the three rural routes asked for in Lumpkin county. He will spend a day on each.

On the first of October Merchant T. S. Littlefield will change locations. He will occupy his store house where Mr. McGee keeps, and run his livery business in the Evans stable. Mr. McGee does not know where he will go yet.

About \$2,000 worth of notes made to Mr. John W. Tate, deceased, was sold here last Tuesday for \$25. Mrs. Tate was the purchaser. This is one reason why goods are high. Too many people refuse to pay the merchants.

Well, that lot of land which a certain preacher owned in this county and gave it away in order to draw a pension, seems to be "hard stock." Up to 1905 he got rid of it twice, but the parties didn't want it and gave it back to him. So this year, he is trying another fellow, who returned it as his property. Maybe he will keep it and the old man will be at peace until he passes away.

According to State School Commissioner Merritt's report to the Legislature, the school statistics in Georgia for 1904 show that the school population was 712,000. The number of pupils attending school was 490,108. Of these, 290,865 were white children and 200,238 were negroes. The number of teachers was 10,389. Of these 6,951 were white and 3,438 negroes. The number of school houses in the State was 7,986. Of these 4,577 were for whites and 2,859 for negroes. The total value of the white school houses is \$1,347,274, while the negro school houses are valued at \$567,879, making a total of \$4,010,144.

Porter Spring Items.

Our public school is getting along fine now. It is like advertising, it pays to "jack" them up some times. We have got a good teacher and a good school.

It seems to help Dillard Grizzle to get the second prize, he is now giving Porter some fine music.

Well, the boys tell a good joke on J. M. D. and J. K. C. The son of Mr. C. had been gone for awhile and had returned. They decided to kill the "fatted calf" but the calf out run them and got away. So, they look like the boy the calf ran over.

Mr. Sherman Anderson went out the other morning and brought in four coons.

There was a large crowd at Pro-Long John's all-day singing. We are going to have a protracted meeting up here and then we will lay down our hatchet for a while.

There is a man up here who has a \$1.00 reward out for the two deacons' names that was in the paper. Let him put \$5.00 and maybe he can get them.

MEMBER.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

There is some consolation in the thought that those air castles in Spain that we can't get might be full of microbes.

Nothing succeeds like success except the young man who has his father's bank account back of him.

No one envies the tramp's hours, and yet they are shorter than the banker's.

When you are in Rome, do as the Roman guide tells you to do.

It is only when it bumps wrongdoing that the truth hurts.

To die for a cause may be heroic, but it is not as practical as to live for it.

While the butterfly is elusive, the boy finds out in later life that it is not half as hard to catch as dollars.

Naturally there is lots of blood in the literature handled by a train butcher.

An honest man is one who has not been tempted by a large enough sum.

A would-be sport does not have to go to the north pole in order to get "cold feet."

The Word That Catches.

There's a word that as by magic Or by something else will cause Nearly every man who hears it In his onward rush to pause, For he can't resist the message, From the air he gets a hunch When he hears a fellow mortal Murmur something like "Free lunch."

Down the street he may be walking, Feeling much at peace and fine, But he puts down brakes the moment That he sees the mystic sign. What, with such an invitation, Can he do but pause and "see" When the friendly sign is saying, "Come and eat, for it is free?"

Can you blame a man when duty Tells him he should be to work If he drops into a basement Where congenial spirits lurk? Can you say that he is foolish, Or the time is not well spent If he can a meal succumb, And it doesn't cost a cent?

There is something most alluring When a thing purports to be Without strings a Christmas present And without conditions free. Simple minded men may wonder As they pass in through the gate, But they very soon discover Who it is that pays the freight.

Didn't Have To.

"Remarkable about George Washington never telling a lie."

"Not so very. He lived before all of the big fish in the streams had been caught."

Great Drawback.

"She would have married him but for one thing—he was terribly cross eyed."

"Didn't like his looks?" "It wasn't that so much. She was afraid he wouldn't be able to tell her when her hat was on straight."

Hard to Part.

"It's hard to part with some dear friend; A pang the parting word will send. 'Tis hard to leave your happy home In far and distant climes to roam. 'Tis hard to part with ready cash, Though rated by the experts trash. 'Tis hard to leave a well repeat Before the final course is passed. But it is harder far, in truth, To part with one well rosted tooth."

It Sued Her.

"She seems to have great confidence In fortune tellers." "Yes; when she was forty years old one looked at her hand and said she was going to take a journey in the thirty-fifth year."

Family Resemblance.

"The Japanese claim their emperor Is a brother to the sun." "How do they prove it?" "Well, he rises every morning, doesn't he?"

Natural Process.

Although the train runs off the track, It is as should be plain That that is all that it can do. The track, although it wanted to, Could not run off the train.

Forgot Them.

"He deeded all of his property to his wife." "He must be a generous man." "His creditors don't think so."

On One Acre.

Samuel Cleeks, of Gleen county, Cal., is heralded as the man who has lived on a single acre of land for thirty years, and not only made a comfortable support for himself and wife, but was able to save an average of \$400 a year besides. It was done by irrigation and intensive farming. A Pennsylvanian is about to follow this example on an acre of land in Colorado, and is confident of success by utilizing every foot of space, as is done by professional gardeners. The Spokesman-Review insists that the same can be done in many parts of the State of Washington, with favorable location and climate. If this becomes general and many find all the land they want is an acre, the awful spectre of an overcrowded world that can't feed its population, will disappear. There would be more than enough land for all if one acre only satisfied many. Even "the little farm well tilled" was supposed to require a number of acres, and will have to yield its fame to the tiny tracts above described.—Ex.

The President's wife has bought a small farm in Albemarle county, Virginia, not far from the old home of Thomas Jefferson at Monticello. If Mrs. Roosevelt is fond of fruit she has selected wisely, as that county is the home of the famous Albemarle pippin, unsurpassed in juice and flavor by any apple of its class. Perhaps in time the President's wife may join the Apple Growers' Association and join that useful band who cultivate the noblest of all the fruits. Unless all the philosophers are wrong, she may find more happiness in this occupation than as Mistress of the White House.—Ex.

Half the ill-feeling in the world could be smoothed out by a few words of explanation, but if on the one side the offender will not say, "I have done anything wrong? If so, I'm sorry," the breach will go on widening until it is irreparable.

APPLICATION FOR CHARTER.

Georgia, Lumpkin County. To the Superior Court of said County: The petition of Geo. A. Neal, of Kansas City, state of Missouri; Henry A. Smith, of Aurora, state of Missouri; and John A. Taylor, of Gridley, state of Illinois, respectfully shows:

1. That they desire for themselves, their associates, successors and assigns to be incorporated under the name and style of

"MOUNTAIN VALLEY MINING COMPANY."

2. They desire to be incorporated for the term of 50 years, with the privilege of renewal at the expiration of that time.

3. The capital stock of said corporation is to be Five Hundred Thousand Dollars (\$500,000) divided into shares of the par value of One Dollar (\$1.00) each, and petitioners desire the privilege of increasing said capital stock from time to time to a sum not exceeding One Million Dollars.

4. All of said capital stock is fully paid up and non-assessable.

5. The object of said corporation is pecuniary gain for its stockholders, and especially the carrying on of mining operations, mining and dredging for gold and other minerals; working and collecting placer deposits of minerals, and gold bearing rocks and clays and gravels; the building, erection and working of smelters, stamp mills; and all other kind of machinery, devices and appliances for producing and saving minerals; to develop water power and the use and sale of such power; to build and operate such railroads and tramways as may be necessary for the profitable conduct of its business; to buy and sell real estate and personal property; to do a general merchandise business, and to do all such acts and things, and to exercise all such powers as are necessary and usual in conducting the business of mining, dredging, merchandising and dealing in real estate.

6. Petitioners desire as such corporation to have the power to contract for, lease, buy and hold such real estate as may be necessary and proper in the conduct of its business, and to sell, lease, mortgage or otherwise encumber the same; to issue bonds, notes or other evidences of indebtedness as may be for the best interest of the corporation to be determined by the board of directors.

7. Petitioners desire as such corporation to have the right to exercise the privilege of eminent domain as is provided by law for such corporations.

8. They further desire as such corporation to have the right to sue and be sued; to have and use a common seal; to make and prescribe such regulations and by-laws for its government as may be needful or proper and not inconsistent with laws; to constitute and elect a Board of Directors and such Officers as may be usual and as shall be prescribed by such laws and as such corporation, they further desire all such general privileges and rights and powers as are incident to corporations of like character.

9. The principal office of said corporation shall be at Aurora, in said County of Lumpkin, State of Georgia.

and petitioners desire that said corporation have the right to establish and maintain such branch offices, either within or without said State of Georgia, as may be deemed necessary as may be fixed and determined by the stockholders of said corporation.

Wherefore petitioners pray to be made a body corporate and politic under the name and style aforesaid and that a Charter be granted them conferring the rights and powers herein set forth, and petitioned for, and your petitioners will ever pray.

W. S. HUFF, Attorney for Petitioners.

I, D. L. Cook, Clerk of the Superior Court of said county, do certify that the foregoing is a true copy of the application for Charter of the Mountain Valley Mining Company, as appears of file of my office.

Witness my hand and Official signature, this 10th day of July, 1905.

D. L. COOK, C. S. C.

Georgia, Lumpkin County.

Whereas, Wm. J. Worley, administrator with the will annexed upon the estate of David Sands Quimby, deceased, lying in the state of Georgia, represents to the court in his petition duly filed and entered on record, that he has fully administered said estate. This is therefore to cite all persons concerned, kindred and creditors to show cause, if any they can, why said administrator with the will annexed should not be discharged from his administration, and receive letters of dismission on the first Monday in August, 1905.

Dahlonega Graded School.

DAHLONEGA is one of the best Educational Centers in the state. In addition to the Agricultural College we have a well graded public school system.

FREE TO EVERY CHILD

who is a citizen of the town. People who have little children to be educated cannot find a better location. Tuition is cheap and the cost of living moderate. Why not move here to give your children a nine months school term instead of having a short term of two or three months as you now have? The children who complete the course in the graded school enter college here without additional examination.

If cheap living, low rates and a nine months school absolutely free for your children is not an attractive proposition, where will you find one? W. L. ASH, Principal.

All legal business promptly attended to

Wine of Cardui Cured Her.

313 South Prior Street,
Atlanta, Ga., March 21, 1905.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach trouble was no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.

OLIVE JOSEPH,
Treas. Atlanta Friday Night Club.
Secure a Dollar Bottle of Wine of Cardui Today.

Rattler's Poison Has an Antidote.

There is in every rattlesnake, a small sac, about the size of a Mexican bean, attached to the intestines. This is filled with a brownish or black fluid, and that fluid is the cure for the bite. If it is applied immediately, the patient will not even suffer any swelling and will entirely avoid pain.

Many Mexicans carry the fluid with them at all times when they are in the mountains or on the desert.

These Mexicans kill all the rattlers they can find, and most of them store the fluid in a bottle made of a rifle cartridge shell, which is tightly corked.

In anatomical descriptions of the rattler, no mention is made of this particular sac, though air sacs are numerous in the intestines of all members of the snake family. But there is no doubt of its existence, for Mr. Daniel said he had seen Mexicans remove it frequently. It may be that this fluid is the secret of the Koki Indians, and accounts for the immunity they enjoy from the poison of the rattler. Those who have attended their annual snake dances and have seen dancers bitten have wondered that the bites were not fatal. At any rate, the secret of the immunity is one of the most carefully guarded secrets of the rites of the Kokis, and it is kept within a select order of the priesthood. Dr. J. Miller for years annually attended these dances, and made study of the ceremonies. The Indians formally adopted him into the tribe, and advanced him in the priesthood. The doctor wanted chiefly to learn the secret of the poison antidote, and he was told year after year that the next year he would be put in possession of the secret. But he died without it.—Ex.

The merchant who is proud of his stock and advertises his goods sells them and makes money; but the one who is ashamed of his, says nothing, makes nothing, and keeps his goods.

Canada.

And it came to pass in those days of which we write, that every fellow tried to pull the other fellow down and kick him. And certain wise men engaged in the art preservative of all arts, sent forth a decree.

Don't tramp on one another's toes. And certain ones gathered themselves together to make laws for the folks, "for know ye that in the making of folks there is no end." And it came to pass that they reasoned among themselves, saying, "We have done nothing. What shall we do to exalt our selves leastwise the people spew us out of their mouths and we don't get to come back any more, and the liquor is good?"

And one rose up in their midst who was mighty, and crafty, and fat, and sick, for the good people of Georgia had fed him at the public crib many days. And he opened his mouth, saying, "Go to h—, Are the people not d— fools? Let us make a law that they elect their Superior court judges." Straightway they all cried out with a loud voice, "Live forever, Oh, King." That is what's the matter with Hanna's leg. Now there was in the land of Georgia, a certain judge of the Blue Ridge circuit, who owned vast peach orchards, and the peaches were good, and were not wormy, neither was he the judge, and some of the small fry sought to pull wool over his eyes, and they went to him and bowed themselves to the earth, saying, "Live forever, Oh, Judge." And he answers them, saying, "You bet."

Now this judge was an upright and just, and his walk was perpendicular. And the small fry sought to flatter him, and they spoke unto him, saying, "Give our executive committee the right to appoint jury commissioners. Just this once and we will exalt thee, and thy name shall be great in Georgia, for is it not every fellow's business to get all the votes he can, any way he can?"

And he answers them, saying, "Go to, you sons of Belial. Get thee hence, and he wilted not, and he waxed great and mighty throughout the land."

Now it came to pass after many days, that certain other judges did become electrified in behalf of the people, for in those days there was electricity in the land, and they spoke to the jury commissioners in a loud voice, making great noise, saying, "Go ye out into every nook and corner of the county and straightway put in the jury boxes lots of folks and proclaim it from the house tops and send all the suckers word I said so. Peradventure I get no votes and they elect the other fellow."

And it came to pass that when the law makers saw what they had done, they were sorely aggrieved and did sift sand, and eat green persimmons, and garlic, and sent their "mussent mention ems" and put on their wives.

Now, it came to pass that a certain State solicitor, who feared the Lord and observed his oath, and whose walk was with God, upright and just, and did not love liquor, much, who had held the office many years, beheld many men he had convicted of crime in the past on the juries, and he opened his mouth and spoke, saying in behalf of all the people of Georgia, "Justice cannot appertain." And all the people cried out from "Hoksmith" to "Billbaker." This is d— Dagskullery and the people marveled and said, "What manner of man is this, and what is Dagskullery?"

CANADIAN.

Newspaper Laws.

Let some of our subscribers read and heed. We hope this will get you to see clear.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue subscription.

2. If subscribers order the discontinuance of their periodicals, the publisher may continue to send them until arrearages are paid.

3. If subscribers neglect or refuse to take their periodicals from the post office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

4. If the subscribers moves to another place without informing the publisher, and the papers are sent to the former directions, they are held responsible.

5. The courts have decided that the refusing to take periodicals from post office, or removing and leaving them uncalled for is prime facie evidence of intention fraud.

6. If subscribers pay in advance they are bound to give notice to the publishers, at the end of their time, if they do not wish to continue it, otherwise, the publisher is authorized to send it, the subscriber will be responsible until an express notice with payment of arrearage is sent to the publisher.

7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time, unpaid, and then orders the postmaster to mark it "refused," and has a card sent notifying the publisher, arrest and fine the same as for theft, etc.

Mrs. J. A. Tate to Thos. A. P. Tate, fraction of No. 119, originally Habersham, now Lumpkin.

A Love Letter.

The following love letter written from Porter Springs to a certain young man is the sweetest thing we have either seen or heard of for some time.

Darling, this leaves me feeling very well to day and I do hope will find you well and enjoying yourself while I am so lonely at home. I would give anything if I only could see you this lonely afternoon.

It just rains nearly all the time and we cannot get to work any to amount to anything and if you

\$5,000

Reward will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform in any form in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with in any way.

Dr. Miles' remedies cure by their soothing, nourishing, strengthening and invigorating effects upon the nervous system, and not by paralyzing and weakening the nerves as would be the case if these drugs were used.

For this reason Dr. Miles' Anti-Pain Pills are universally considered the best pain remedy. "I have suffered for 25 years with neuralgia, heart and back, and have tried everything, could not get any relief until I got a box of Dr. Miles' Anti-Pain Pills. I suffered as long as 12 hours at a time with such severe pains that I feared I would lose my mind. The Anti-Pain Pills gave me relief in from 10 to 20 minutes. I do not have to use Morphine any more. I wish you would publish this so that other sufferers may find relief."

E. A. Walker, Salem, Ind.
Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that they are genuine. If he fails he will return your money, 25 cents. Never sold in bulk.
Miles Medical Co., Elkhart, Ind.

were here I could pass off the time so much better.

Darling, the time seems so long since I have seen you. Some times I think we are so far apart I will never get to see you again, and I think it is not too far for you to go, and I know if you live you can come back if you want to see your true love, and I do hope you think enough of me to come back some sweet day. Darling, what would I do if I knew I never would see my only love any more? I don't think I could ever stand it to know I never would see you any more, but I do truly hope and trust I will see you some sweet day.

Well, darling, I will close for this time, hoping to hear from you at once. So, be a good little sweetheart and don't forget your true and loving sweetheart.

Bye, bye, tell I hear from you, my only love.

THE NUGGET.

DAHLONEGA, AUGUST 11, 1905.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

Official Organ of both City and County.

SUBSCRIPTION PRICE:
\$1.00 - 12 Months.
50 cts. - 6 Months.
30 cts. - 3 Months.

Hon. John Bennett says that he will not run for governor, but will support Col. Estill if he runs.

Washington's health officers say that a mosquito must bite a yellow fever patient three days after the attack to be of any danger in spreading the disease.

When you take a drink at the Piedmont bar in Atlanta, you need not pay for the third drink—that is devoted to "charity," and you can be an object of charity, says the Marietta Journal.

The grand jury of Hall, has found persons drawing pensions in that county who are not entitled to them, and have appointed a special committee to make a thorough investigation.

"Nigger" Rucker is to remain collector of revenues at Atlanta. He has made a bomb-proof bond—with some choice Atlanta capitalists on it. Atlanta is a funny town, anyway!—Brunswick Journal.

Some of our exchanges claim that they have a big force in the office. If so, why don't they quit double leading their matter and give the readers the full benefit of their space? This is the next thing to "salting a gold mine."

The Union County Banner says: "We would like to know if Dahlonega wants 'any more' Fiddlers' Convention?" Yes. For the one recently held was the biggest gathering that we have had here in a long time, and much better behavior than is usually had at camp meetings. Nothing occurring during the entire day either at the park or in town, that will find its way to the Superior court.

Of those who stood the examination for carrier of rural free delivery route number 1 from Morayville, which starts September 1st, Mr. E. B. Bird made the highest percentage, viz: 84, and he will, therefore, get the appointment, says the Gainesville News. The other two on the eligible list and their percentage are: Marion Parks, 80, and Claud Thompson, 87. This route will be 28-3 miles long and will serve a large number of people. This route passes through Lumpkin county and will supply a long felt want.

The child labor bill passed the house last week by a vote of 108 to 62. It is a good move, Representative Shultz of Lumpkin, voted for it. Under this law, no child under the age of 12 years shall be employed at labor in or about any factory or manufacturing establishments within this state, unless a widowed mother or aged or disabled father is totally dependent upon the labor of such child, or in case a child is an orphan and has no other means of support. No child under the age of 10 years shall be so employed under any circumstances.

The following clipped from the Marietta Journal shows how fast the peach growers of that section are getting rich: Mr. Crof Reed, a well known young farmer, north of Marietta, has reaped a reward from his Elberta peach crop. He has six acres, and gathered from it twenty-four hundred crates of as fine peaches as has been marketed here. He sold these peaches at one dollar per crate, delivered at the depot, and was paid \$2400 in cash. He netted \$1500 in the output. This is fine result. The first year on this six acres, he netted \$250. He has sold about \$1,000 nursery stock and upon the whole he is making money in the peach business. He says he wouldn't take \$10,000 for his place.

Lumpkins Alternative Road Law.

The alternative road law, adopted by the grand jury at the spring term for Lumpkin county, was put into effect last Monday by Ordinary Evans appointing the overseers. He had a large list to select from, as the applicants came in bright and early from all parts of the county causing the day to somewhat resemble a big muster or a county election.

The following persons were selected, who have to give a good two hundred dollar bond each and receive \$1 per day for their services:

Auraria District: A. M. Martin and James F. Wheelchel.
Crumby: W. S. Wilbanks.
Chestatee: W. D. Seabolt.
Cane Creek: Frank Wimpy, Jr. Davis: Wash Rider.
Dahlonega: John H. Jenkins and Henley Wimpy.
Frogtown: W. B. Jones.
Hightower: W. P. Rider.
Jones' Creek: Eldridge Lingerfelt.
Martin's Ford: G. W. Byers.
Mill Creek: H. Chambers.
Nimblewill: George Fricks.
Porter Springs: J. M. Duckett.
Shoal Creek: J. H. Chapman.
Wahoo: John B. Stringer.
Yahoola: J. C. Walker.

These overseers are appointed for six months, who discharge the duties set apart for overseers under the old law, as the order appointing them have been revoked thus ceasing their responsibility.

City Council Meeting.

The city council of Dahlonega, held its regular monthly meeting last Monday night.

The following reports show the treasury of both the town and public school to be in a healthy condition, enabling the body to make a reduction of five cents on the hundred dollars in the tax rate this year: Treasurer Jackson of the public school, reports \$900.01 in the treasury, and Treasurer Smith of the city, reports a balance on hand of \$308.49 of different funds.

The marshal showed by his report that he had collected \$88 for the month of July, as follows: Street tax, cash, \$80.25. Street tax in work, \$29.75. Fines, \$18.00. Half cemetery lot sold, \$10. After the reading of the different reports the city school bond No. 7 for \$100, having been paid, was burned in the presence of the council.

The street committee was instructed to let the contract of clearing off the cemetery to the lowest responsible bidder, work to begin the 15th inst.

The public closet and hog pound were condemned and ordered moved from where they are now located.

Many trains have been discontinued on account of the yellow fever at New Orleans.

A bill for the state to tax bar-rooms \$500 per annum passed the house this week by a "tight squeeze," which causes the block-aders to rejoice.

Savannah has shut her doors on several Southern cities, including Brunswick, Ga., and Brunswick has quarantined against all cities infected by yellow fever.

A MATTER OF HEALTH

ROYAL BAKING POWDER
Absolutely Pure
HAS NO SUBSTITUTE

"Observer," in last week's Union County Banner, in writing about the recent Fiddlers' convention at Dahlonega among other things said: "The convention consisted of music, by the fiddlers, address of welcome by the mayor, dinner, vocal music, cursing, drinking, fighting and all other devilment that could be thought of in a week was carried on. Some of the boys got so full of corn juice that they could hold their peace no longer and commenced cursing, causing them to be lodged in the 'boose.' Then some more of them thought they must fight a little, so they commenced throwing rocks at each other." As is often the case, when a man is drunk he thinks every other fellow is in the same condition. This must have been "Observer's" fix, else he would not have penned the foregoing untidy lines. As it was on the ground from the beginning to the ending and never heard a single oath used, nor observed but three men who looked like they were under the influence of liquor. There was no fighting, not even a quarrel, and only one man arrested. This does well, we think, of a crowd of over 1,000 persons, much better conduct than is often seen at churches.

A physician has been put on each train running into Atlanta from fever infected districts, so as to prevent the disease from being brought to that city.

Notice.

Sealed bids will be received until 12 o'clock on Monday, the 14th inst., by parties wishing to clean off the cemetery at this place. Separate bids are desired for the colored ground. The committee reserves the right to reject any and all bids. This Aug. 7, 1905.
W. B. TOWSE, Ord'nry.

NOTICE TO TEACHERS.

The next general examination of applicants for license to teach in the Public Schools of the state of Ga., will be held on the 26th and 29th of August next. Those who desire to stand examination in Lumpkin county, will meet me in hand and official signature, this 7th day of Aug. 1905.
J. J. SEABOLT, C. S. C.

Georgia, Lumpkin County.
To all whom it may concern:
Sally E. Christian, in giving notice application to me in due form to be appointed permanent administratrix upon the estate of Samantha Christian, late of said county, notice is hereby given that said application will be heard at the regular term of the court of ordinary for said county, to be held on the first Monday in September, 1905. Witness my hand and official signature, this 7th day of Aug. 1905.
G. G. EVANS, Ordinary.

Georgia, Lumpkin County.
To all whom it may concern:
Mary M. Findley having in proper form applied to me for permanent letters of administration on the estate of Thomas H. Parrish, late of said county, deceased. This is to cite all and singular the creditors and next of kin to Thomas H. Parrish, to be and appear at my office on the first Monday in September, 1905, and show cause, if any they can, why permanent administration should not be granted to Mary M. Findley said county, on Thomas H. Parrish's estate.
Witness my hand and official signature, this Aug. 8, 1905.

City Tax Assessment 1905.

At a meeting of the city council on August 7, 1905, the following taxes were levied for the support of the City of Dahlonega, Ga., for the year 1905, to-wit:
To retire school bond 1905 and pay accrued interest, 6 cents on each one hundred dollars assessed.
For the support of the city public schools for the years 1905 and 1906, 30 cents on each one hundred dollars assessed.
For marshal's salary 9 cents on each one hundred dollars assessed.
For general expenses of said city for 1905, 7 cents on each one hundred dollars assessed of property of said city, making a total of 62 cents.
Done by order of council, this Aug. 7, 1905.
RUFUS H. BAKER, Mayor,
WM. J. WOLFEY, Clerk.

Number of cases of yellow fever at New Orleans, up to date, 569, deaths 115.

The Russians have been confronted by the Japs 490,000 strong with 1,600 cannon.

Capt. Evan P. Howell, one of Georgia's noblest sons, died in Atlanta last Sunday of blood poison.

In a burning building at Albany, N. Y., on Tuesday, it is believed that at least fifty persons perished.

After being out five days in the Sanford murder trial at Rome, the jury notifies the judge that they cannot agree.

Mr. J. B. Hendrix, of Gadsden, was wedded last Sunday to Miss Ellen Jones, of Cooper's creek, Rev. W. H. W. Gurley officiating.

During the sensational trial of Sanford for murder in Rome last week, the mother of W. A. Brandon, one of the jurors, died, causing a delay. The juror was permitted to attend her funeral under guard of a bailiff.

The United States public health and marine hospital service has taken charge at New Orleans, with the hopes of being able to soon check the yellow fever in that city. The citizens of the city have pledged themselves to give a quarter of a million dollars to defray the expenses.

Local News.

A telegram last Friday called Mr. Ogie R. Arnold to Chicago on business.

Mrs. T. R. Kendall, of Louisville, Ky., is here on a visit to her sister, Mrs. J. W. Boyd.

Any one desiring to board students this fall will please notify Dr. Glenn, by mail or otherwise, at once stating the number and price wanted.

Mrs. Brice and Mrs. Bailey, of Mobile, Ala., after spending a short while here with relatives, left last week, but do not expect to return home until the fever scene is over.

We are glad to learn that Mrs. Daniel Howell, of Auraria, will soon move to Dahlonga, so that several of her grand children can receive the benefits of our splendid schools.

Last week Jos. Ash, of Lumpkin county, who was arrested in Canton, Ga., not long ago for illicit distilling, was only given two months and a hundred dollars by Judge Newman.

Years ago when people got sick their neighbors and friends would go and do all they could for them until they either recovered or died without ever thinking of being thanked through the columns of a newspaper. But times have changed and you have to thank a person for coming to see your relative when he or she dies now.

A New Union Baptist Association, which closed at Mill Creek church last Sunday, proved to be very interesting, with no liquor drinking or disturbance whatever. The next annual meeting will convene two weeks later in the month than heretofore, at Salem church. Rev. V. A. Higgins was the moderator and A. M. Ashbury, clerk.

A Dahlonga merchant was very much surprised at receiving a din from a drug firm in Atlanta the other day for morphine. Never having traded any with this firm asked him to make inquiry, who was not long in finding that his name had been forged by some one. A further investigation is being made and there is no telling what the result will be.

Good roads bring about much improvement and benefits. Good graded roads in Lumpkin county, which we will have soon, will be much more beneficial than the people even think about. Take Mr. Ashley's proposed automobile line from Dahlonga to Gainesville. It would reduce both the fare and freight on goods from that city, and cause a big increase in travel.

Mr. P. T. Lilly, of Dawson county, came up last Friday in company with his mother. Mr. Lilly reports everything moving along about as usual down his way. Unless it rains soon not much over half a crop will be made down in his county, but there is plenty of old corn on hand. The price of it in Dawson is 55 cents per bushel and dull sale at that.

On Saturday night Mr. Wylie Carroll was wedded to Miss Nellie Roberts, a daughter of Mr. Al Roberts, by Squire W. J. Worley. All of Dahlonga. They decided to keep it a secret and Wylie took his meals at home on Sunday as usual, but by snapper time, his father got wind of it. There was no objection on either side, but they fell upon this plan like many other couples have done.

Over in Shoal Creek district the Mt. Zion cemetery is filled with graves to the line, where a man owning the other lot, plows right up to them. An effort was made to purchase a short strip from this man the other day, so as to prevent this, but his reply was: "He had rather buy the cemetery than to sell any of his land." No one except those having relatives in that cemetery can feel the stinging pain of this remark.

Persons wanting shingles should go or write to Hutchison Bros., Freda, Ga.

We still keep turning out job work. If you need any, we can serve you now.

The box supper takes place tomorrow at Ashley school house, instead of next month.

Mrs. Florence Hartman, of Thomaston, Ga., has been spending a few days with her relatives in Dahlonga.

If you need a two-horse wagon, call on A. J. Anderson, Wier, Ga. They are made from home growth timber and ready for hard service.

Mr. Will Weaver returned from Alabama last week. He has been sick and there is no place like home when a person is well, much less sick.

Mr. J. M. Ashley has already rented the Tate residence, down in the lower end of town and will bring his mother here to live. We welcome them to our mountain city.

We received a letter last week written on red paper, cut nearer the shape of a flying machine than anything that we can think of now. However, it was too late to be published.

Mrs. J. E. Meaders, of Swainsboro, Ga., came up last week and joined her husband who had been here for a short time. Mrs. Meaders was accompanied by Miss Corrie Weston.

Mr. W. A. Edge, who got married recently, subscribed for THE NUGGET and left for the marble works last week. All young men starting out this way are bound to succeed in life.

Mr. John Hatfield, of Monticello, Ga., has sent a this day in Dahlonga this week. His wife has sued him for alimony and the object of his visit here was to get up some testimony in rebuttal.

People have already commenced engaging houses in Dahlonga and by next month we expect to see all the empty dwellings in our city occupied. The demand has already caused rents to advance.

All persons desiring to clean off their relatives graves in the Dahlonga cemetery themselves are requested to do so not later than Monday, as the council will contract all that part not cleaned up next week.

You might not have noticed it, but we have. A person who does not take his county paper and depends upon borrowing, is not much benefit to himself, or the community, and doesn't make good a citizen with very few exceptions.

We understand that Messrs. T. J. Smith & Bro. of Dahlonga, will make a change in both location and business by the first of January. Mr. Tom Smith will convert the present building now occupied by the Signal into a store house, and move into it, while his brother Ben, will go to White county.

With the assistance of Miss Marie Tillson, violinist, and Miss Fannie Gaillard, pianist, Mrs. R. F. Tackabury, of Chicago, a graduate of the Cumnock School of Oratory, one of the best schools of Expression in America, will give a recital in the College chapel tonight at 8:30 p. m. The program will consist of humorous, pathetic and dramatic selections.

Sheriff Davis spent two days last week in search of John Beasley, the escaped convict of this county, but failed to get him again. But near one of John's supposed places of abode—a rock cliff—on the river, he killed a big rattlesnake. In the west it is said that prairie dogs and rattlers inhabit the same hole. It's not this way with John, but maybe the snake has been keeping house for the fugitive during his absence. It is said that Beasley carries a gun all the time, and it may be that there will be some trouble when he is arrested, which will be done if he stays in this county.

Mrs. Lewis Ricketts is up on a visit to relatives from Atlanta.

Mr. Julian, of Forsyth county, spent last Saturday night in Dahlonga.

Mr. J. C. Tate of this county, who has been attending a business school in Atlanta, returned home last week.

Montie Thomas was up from Gainesville last week with a wagon load of temperance drinks from Summers' bottling works. It sold pretty fast, but not as well as if it had been pure moonshine corn juice.

We are informed that our last week's NUGGETS for Wier were held over at Randa until Friday and the subscribers didn't get them until the next day, this having occurred twice during the year. What's the trouble now?

Lincoln Wehant, the hatless man of Lumpkin county, was presented with a fine baby girl last week by his young wife. It may be now that the father will decide to wear a hat. No, we guess not either, because he might be expected to buy the baby one later on.

Sheriff Davis went out into Mill Creek district last week and arrested young Bracket, a son of Mr. John Bracket, who is wanted in Lumpkin county for misdemeanor. He made bond. Bracket is the young man who was so badly cut with a knife by some one out in Picken county about a month ago.

Down at the McAfee-Lind mine the other day Will Lemly hung up his vest and watch before going to work. Later he went out to see what time it was and found his vest and watch both gone. Looking off a little distance he saw an old cow chewing and swallowing the vest, all being gone except six or eight inches. He ran for life to save his watch, but found where the cow had dropped it after chewing and breaking the crystal. The watch can be repaired but the vest can't.

There was a wedding down at Auraria last week which was not known to anyone here scarcely until the bride and groom came up last Saturday. The contracting parties were Mr. Lester Cavender and Miss Eva Woody, a daughter of Mr. Peter Woody, of Auraria district. The night of the wedding the young couple started to meeting at Auraria as usual, saying nothing about their intention to any one. And as soon as the services closed they went to the residence of Rev. V. A. Higgins and were made man and wife.

Judge Evans received a note from Mr. Haden last week, stating that his wife had gone deranged and that he could do nothing with her. Mr. Evans went out on Friday to see about it. Mrs. Haden was then quiet and he got the husband to agree to keep her awhile longer, with the hopes that she would get all right. It will be remembered that Mrs. Haden was tried for lunacy about three months ago at this place and acquitted. Later—Mrs. Haden has grown worse and at the request of her husband Mr. Tom Stringer swore out a warrant and the defendant will be tried as soon as the time fixed by law arrives—again.

We understand that there was so much drinking and bad conduct up at Yahoola church last Friday night that Preacher Carter dismissed the congregation and held no meeting. During the singing that day, we are told that two young men got drunk and went yelling about like they were crazy. The next grand jury can put a quito to all this if each member will do his duty. If not, all those knowing the facts and fail to discharge their duty should be thrown out of the jury box. What's the use for the county to pay men for services not rendered? Just as long as one eye is shut on such conduct by those who can stop it, we can't expect people from being disturbed at churches and singings.

Mr. James Brown moved to Jackson county a few days ago.

Miss Anno Worley has returned, after a three weeks visit to Gainesville.

If you wish to take the contract of cleaning out the Dahlonga cemetery, see notice elsewhere.

If you want to laugh, hear Mr. Dooley's opinion of the sleeping car, at the college Friday night.

The inspector has been here this week looking over the three different rural routes asked for in this county.

Come and hear Miss Tillson Friday night. It may be your last opportunity of listening to this gifted musician.

Mr. Louis Rider and Miss Harriet Lance, daughter of Mr. Dal Lance, were wedded in this county one day last week.

Col. Price is having the old Baptist church repaired. Mr. J. M. Brookshire is doing likewise on his Park street property.

The city council has made a side walk up the hill to the college dormitory. This will be of great convenience to many people.

Let all those young persons who have recently married, increase the happiness of their homes by subscribing for THE NUGGET.

Mr. Wm. Vaughn and Mr. Fala Carter, who have been at work down the country for a couple of months, are at home on a visit.

On Sunday last Mr. John Grindle, of Lumpkin county, was married to Miss Nora Kennedy, daughter of Mr. John Kennedy, of Hall.

We have been revising our subscription list this week. If any mistakes have occurred let us know and we will be pleased to rectify them.

The road tools bought by Judge Evans amount to \$255.32, including shovels, picks, mattocks, hammers, etc., to supply each district in the county.

Mrs. W. F. Duckett has returned from a few weeks visit to Picken county, accompanied by a daughter and son of Mr. Cage Duckett, of that county.

Mr. W. A. Shed and Mr. Wince Bryant, of Jackson county, while up this week looking over their old stamping ground, dropped in to THE NUGGET office.

At Oak Grove school last week a contest was had for two representatives for the annual oratorical contest, which takes place in Dahlonga next month. Out of fifteen or twenty contestants, Miss Carrie Dowdy and John Lingerfelt were the chosen ones. Let other schools send in their representative names as soon as they are selected, so we can publish them.

From what we learn there seems to be a good deal of friction between Mr. Marion Parks, of Hall, and his brother-in-law, Mr. Bowen, of Lumpkin county. They used to do a flourishing business together at Garland and Mr. Parks was postmaster at that place for awhile. They had a falling out, causing them to dissolve copartnership and Mr. Parks moved to Hall county. Since then Mr. Parks stood the examination for the rural route from Murrayville and stood second best, entitling him to assist in carrying the mail when the next man fails from any cause. This route causes the abolishment of Garland postoffice when service begins to the displeasure of Mr. Bowen, the present postmaster, who we understand, not wishing Mr. Parks to have anything to do with the route, has reported him to the department, alleging that Mr. Parks took enough stamps while postmaster to send off and buy a watch, contrary to the law and regulations of the government. An investigation is reported as being already begun, and if Mr. Bowen establishes the fact Mr. Parks will be punished, and if it is not established Mr. Bowen can never get another job from the government in accordance with its rules.

See notice of house to rent elsewhere.

Peas at 75 cents per bushel at T. J. Smith & Bro.

Fresh butter all the time at Bruce's kept on ice.

We received another order for job work from Texas this week.

Miss Fannie McGuire has returned from her visit to Atlanta.

If you wish to teach a public school, see Commissioner Seabolt's notice elsewhere.

The government surveyors have finished up their work here and left out Monday.

Col. Lilly left for Canton last Sunday, where he spent a day on business in Cherokee Superior court, and from there he went to Dawsonville.

Col. J. H. Moore is the only friend the English sparrows have here. He feeds them regularly and every night and morning at least a hundred can be seen at his feeding place.

Some portions of the county was visited by a right heavy hail and wind storm last Monday afternoon. Across the mountain it seemed to be severer. At Mr. William Gilreath's it blew down a number of his fruit trees.

Rev. Mr. Turner, the former pastor of the Dahlonga Methodist church, will be here next week to go with Pr. f. Boyd on a fishing trip across the mountain. Mr. Turner has many warm friends here who will be glad to see him.

Remember that the Dahlonga public school is free to all children whose parents reside within the corporate limits and only costs those beyond the limits one dollar per month. This is a rare opportunity for the people of this whole section.

We saw this week, a piece of good mad furniture which Maj. Tillson got in China while there. It is about as high as a table, two and a half feet long, by twelve or fourteen inches wide, with two drawers in one end, one below the other. We don't know what John Chinaman calls it.

We are told that it is a rare thing for a merchant in Dawson county to keep any meat to sell. Most all of them raise their meat down that way. It was once this way in Lumpkin county, and we hope to see the day again when all our farmers will raise meat enough to supply the market, so as to keep the money at home.

If you wish to enjoy yourself occasionally rise at 4 o'clock in the morning and walk up on top of the Findley Ridge, where there is nothing higher between you and the Blue Ridge mountains, get a fresh breeze and look down upon Dahlonga with her streets ablaze with electricity. If you have any troubles they will all cease. You will feel proud that you are alive if your home is in this city. We tried it last Wednesday morning.

During the union colored meeting near Dahlonga two week ago an old gray headed preacher was in attendance from Hall county, who on account of his many years of life is called "Papa Jinks." This negro roared at Manuel Howells while here, whose talk and actions caused Manuel to believe if he was as good a man as "Papa Jinks" that he could have anything he needed or wanted by calling on the Lord. Old "Papa Jinks" squared himself up to the table with a lengthy blessing, and prayed so long and long at nights and mornings that the dogs barked and the chickens cackled, the latter scaming to realize that there was something about much more destructive to them than a dozen hawks. So the meeting closed and "Papa Jinks," before leaving bid all good-by, requesting them to meet him in heaven. What is the next we hear about old "Papa Jinks"? That he hitched up his horse to a buggy the other day and drove away with a young woman for parts unknown, leaving his wife behind.

Mining News.

Mining maps of Lumpkin county for sale by J. F. Moore & Co., Dahlonga, Ga., at 25 cents each. Mr. Wash Satterfield went up to White this week to make a mill test for the Southern Power and Milling Co.

McDonald Bros. didn't get the water on their mine at the Lockhart until last Monday. It has been quite a job for these young men but this good gold mine coupled with their experience and industry will soon reward them for their labor.

McDonald & Moore got the water on their Columbia mine and the lift to running last Saturday afternoon. Both expect to make a lot of gold by placer work, owing to the fact that Col. R. H. Moore got about 1,000 penny weights of gold from a ten foot pit there many years ago.

Work was resumed in the Wallace shaft at Crown Mountain mine last Tuesday on contract by Mr. David Pruitt, who agrees to sink it 20 feet at \$12.50 per foot, the company furnishing the power only. It will be operated day and night by machine drills. Had this been done at first the shaft would have been completed at a saving of several hundred dollars, although it is a pretty expensive plan now for them to run a big power plant and an air compressor to sink this shaft alone.

Messrs. Henry A. Buell and Cecil R. Soyev were in our town a short while on Sunday. These gentlemen are very interested in the gold mines of this county and have recently purchased the Castleberry property. It is their intention to develop this mine and install a mill and giants at as early date as possible. This mine is on the Baggs Branch belt, one mile below Auraria, and is considered very rich. We wish these gentlemen unbounded success in this new enterprise and with good management they will certainly succeed. They are also making things move on the "Mountain Valley," of which mine they are stockholders.

Those fellows that are "salting" their gold mine had better be more careful in the future if they do not wish to be exposed. If we can get properly behind the thieves scheme we shall give the details to the public.—Dahlonga Signal Aug. 4th.

We publish the above yet we don't believe there is a person in Lumpkin county that will believe it other than the mining editor of the Signal, and we doubt whether he does or not, for he referred to just such a thing many months ago. The idea of warning such persons is a ridiculous idea. Keep such a thing quiet and help to see that they get their just reward. If this editor was to know of persons stealing corn or anything else, would he warn them to be more careful in it? Wouldn't it be his duty as a citizen to impart the news to the owner and let him catch them, instead of notifying the thieves, so they can move in such a manner as not to be detected? The truth is a certain fellow got disappointed in a job likely because he drinks too much liquor and it is his idea to try to injure the other fellow in his business. No, the time of "salting" gold mines may have been but it is a thing of the past now. When parties wish to buy mining property now they bring their experts with them who dig out the ore or gravel and do their own panning. However, we will give the Signal man \$25 if he will furnish the proof to convict any one guilty of swindling by "salting" any gold mine in Lumpkin county, although we are not interested in any of them either directly or indirectly, except being for the good of any enterprise that tends towards the building up of the country, and we feel confident that every other person or company here having mining property or stock for sale will each give as much more money for this cause. Let those willing to do so send in their names for publication, so we can find the Signals gold "salters" and have them hattered by the arms of the law.

SOME BUTTER TESTS

METHODS BY WHICH TO DISTINGUISH THE GENUINE ARTICLE.

The Use of Preservatives With Fresh Meat—Coloring Matter In Many Sausages—How to Detect Bore Acid In Meat Products.

It is a matter of common information that oleomargarine is sometimes substituted for butter and that rancid and badly made butter is frequently melted, washed with water and churned with milk for the preparation of renovated or process butter.

Methods are available which, with a little practice, may be employed to distinguish between fresh butter, renovated or process butter and oleomargarine.

The "spoon" test has been suggested as a household test and is commonly used by analytical chemists for distinguishing fresh butter from renovated butter or oleomargarine. A lump of butter two or three times the size of a pea is placed in a large spoon and it is then heated over an alcohol burner. If more convenient, the spoon may be held above the chimney of an ordinary kerosene lamp, or it may even be held over an ordinary illuminating gas burner. If the sample in question be fresh butter it will be entirely clear, the evolution of a large number of small bubbles throughout the mass which produce a large amount of foam. Oleomargarine and process butter, on the other hand, sputter and crackle, making a noise similar to that heard when a green stick is placed in a fire. Another point of distinction is noted if a small portion of the sample is placed in a small bottle and set in a vessel of water sufficiently warm to melt the sample. The sample is kept melting from half an hour to an hour, when it is examined. If renovated butter or oleomargarine, the fat will be turbid, while if genuine, fresh butter the fat will almost certainly be entirely clear.

To manipulate what is known as the Waterhouse, or milk, test about two ounces of sweet milk is placed in a wide mouthed bottle, which is set in a vessel of boiling water. When the milk is thoroughly heated a teaspoonful of butter is added and the mixture stirred with a splinter of wood until the fat is melted. The bottle is then placed in a dish of ice water and the stirring continued until the fat solidifies. Now, if the sample be butter, either fresh or renovated, it will be solidified in a granular condition and distributed through the milk in small particles. If, on the other hand, the sample consists of oleomargarine it solidifies practically in one piece and may be lifted by the stirrer from the milk.

Many persons believe that the great mass of the fresh meat sold on the market is preserved chemically. This impression is entirely unfounded. The cold storage facilities of the present day make the use of preservatives with fresh meat unnecessary, and the larger packing houses do not employ them. It sometimes happens that local butchers sprinkle preservatives over a cut of meat in order that they may keep it exposed on the block or hanging in a show window as an advertisement. The use of chemical preservatives with fresh meat is confined to this practice alone.

Preservatives are very commonly used with chopped meats and sausages, especially fresh sausage. They are always employed with canned Vienna and Frankfurter sausages inclosed in casings with the ends tied. Where the ends are cut preservatives may be absent. The reason for this is that the temperature required for the complete sterilization of sausages will either burst or distort the skins when the ends are tied, whereas sausages with cut ends afford an opportunity for the escape of the water and steam.

With many varieties of sausages, both fresh and smoked, and with chopped meats of all descriptions, coloring matter is sometimes employed. This is done partly for the purpose of satisfying an unnatural demand for a high colored article and partly sometimes to conceal the grayish color characteristic of old meat, which should not be used at all.

The preservatives employed with meat products are boric acid, borax and sulphites. To detect boric acid about a tablespoonful of the chopped meat is thoroughly massaged with a little water, pressed through a bag and two or three tablespoonfuls of the liquid placed in a sauce dish with fifteen or twenty drops of strong hydrochloric acid for each tablespoonful. The liquid is then filtered through filter paper and a piece of tumeric paper dipped into it and dried near a lamp or stove. If boric acid or borax were used for preserving the sample the tumeric paper should be changed to a bright cherry red color. If too much hydrochloric acid has been employed a dirty brownish red color is obtained, which interferes with the color due to the presence of boric acid. Now, if a drop of household ammonia be added to the colored tumeric paper and it turns a dark green, almost black color, then boric acid is present. If the reddish color, however, was caused by the use of too much hydrochloric acid, this green color does not form.

The corrosive nature of hydrochloric acid must not be lost sight of. It must not be allowed to touch the flesh, clothes or any metal.—New York Tribune.

Be Asked For It.

"Do you know that the coin you lent me was a counterfeit?" said the habitual borrower.

"Oh, sure I do. You said that you needed it bad."

A person suffering from chronic rheumatism should avoid dried fish, cooked oysters, pork, veal and turkey.

Some Strange Things.

While carrying a keg of beer intended for a picnic at Reading, Pa., one day last week Elmer Kerchoff stumbled over a wire. The keg slipped so suddenly that the jar dislocated his neck.

Only a short time ago Miss Carrie Hughlin, of Janesville, Wis., was so tightly hugged by her lover that two of her ribs became interlocked. After suffering severely pain the young woman confessed that strenuous lovemaking was the cause of distress.

Emmanuel Bovler, of Sterling, Ill., cut his throat on his high collar. He was riding on a bicycle and in trying to avoid a passing horse, was thrown. In his fall his collar cut his throat.

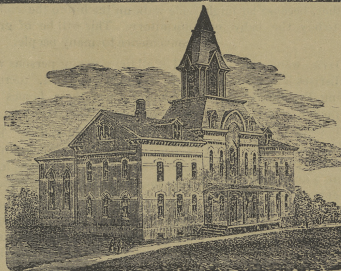

Margaret Kirchbaum died of eating hot potatoes. She was in a hurry to go out and gulped down several hot potatoes. She died in great agony. The autopsy, showed that her throat and the lining of her stomach had been so badly burned that the swelling had choked her to death.

Jasper Compers, while waiting for a car at midnight in St. Louis, sat down on a barrel of tar and fell asleep. When he awoke he

found that the tar had softened and he had slowly sunk down until his feet, arms and head only were outside. He was chopped out with an ax.—Ex.

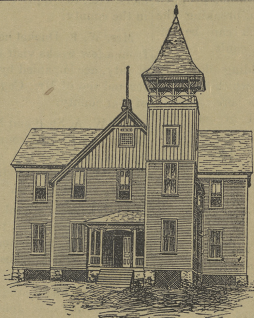

Salts Many Qualities.

Besides being an essential part of the culinary art, salt has many other uses perhaps not generally known. Salt cleanses the palate and furred tongue, and a gargle of salt and water is often efficacious. A pinch of salt on the tongue, followed ten minutes after by a drink of cold water, often cures a sick headache. Salt hardens gums, make the teeth white and sweetens the breath. Salt added to the water in which cut flowers stand keeps them fresh. Salt used dry in the same manner as snuff will do much to relieve colds, hay fever, etc. Salt in warm water, if used for bathing tired eyes, will be found very refreshing. Salt and water will stop hemorrhage from tooth-extraction.

North Georgia Agricultural College,
A State Institution,
Dahlonega, Ga.

Dahlonega Graded School.

DAHLONEGA is one of the best Educational Centers in the state. In addition to the Agricultural College we have a well graded public school system.

FREE TO EVERY CHILD

who is a citizen of the town. People who have little children to be educated cannot find a better location. Seats are cheap and the cost of living moderate. Why not move here to give your children a nine months school term instead of having a short term of two or three months as you now have? The children who complete the course in the graded school enter college here without additional examination. If cheap living, low rates and a nine months school absolutely free for your children is not an attractive proposition, where will you find one? W. L. ASH, Principal.

RAILWAY RATES AND PAY BILL.

Employees and Boards of Trade
Oppose the Each-Towns-
end Bill.

(From the Railroad Record.)

It would not take a cotton crop of fifteen and a half million bales at 10 cents a pound to pay all the railroads employees of the United States their wages for one year. The roads have a million four hundred thousand employees in the whole country.

In Georgia they have 23,500 employees and within 200 of the same number in Alabama. The wages in each state amount to just about one million dollars a month or twelve million a year.

They spend three million more for fuel, oil and taxes in Georgia. They have spent four million dollars in and around Atlanta on permanent improvements in the last eighteen months. One road is spending two million dollars to build a new line through North Georgia. Another road is spending enormous sums in other parts of the State on new station, side tracks, cutting down grades and increasing facilities.

The average pay of railway employees in the United States is \$1.31 per day as against 71 cents in England, 51 cents in Germany and 52 in France. In Germany and France the governments own most of the roads.

The brotherhoods of Locomotive Engineers, Firemen, Conductors and Trainmen all over the country are petitioning congress not to give any commission power to fix rates. A great many Chambers of Commerce, Boards of Trade and shippers are doing the same thing.

Both the employees and shippers object on the ground that the roads would be so hampered by red tape and cast iron rules that they could not continue to develop and grow as they will do if left free to deal with the shippers like any other business.

It is the policy of American roads to help the producer reach

distant markets, whether he be a cotton planter, manufacturer, a western grain farmer, a lumberman or anybody else.

This policy aids development of all parts of the country.

For example, the Southern lumberman, cotton and fruit farmer and manufacturers could not begin to sell their products in their home markets. They have to ship long distances and they have to get lower rates proportionately on long hauls than on short ones. When government make rates they have to make their rates according to distance.

How to Get a Position.

Spend eight hours each day looking for work. If you had a position you would expect to work that many hours, at least. Be neat in your dress, finger-nails clean, smoothly shaven. Remove your hat as you approach to make your request. Wear but little if any, jewelry. Fumes of tobacco or liquor on your breath will usually be fatal to your request. Expect to find work at every place you apply. Never get discouraged, or if you do don't show it in your face. Never plead poverty or necessity. Stand on your merits. Carry a smiling face. Never advance your proficiency as an argument for being hired; let your employer discover that for himself.

HOW TO KEEP YOUR POSITION.

Be prompt in your attendance to business hours. Try to see how much you can do and how well you can do it, regardless of your wages. Be courteous to every one. At all times keep yourself posted and up-to-date in your business. Knowledge is power. Attend strictly to business during business hours. Never leave one situation until you are sure of another.

The Baltimore man who said, in his will, "The world has not loved me," would probably have found the world more affectionate if he had lavished upon it what he was bequeathing to his heirs.

RULES AND REGULATIONS.

ALTERNATIVE ROAD LAW.

An act to give the commissioners of Roads and Revenues or the Ordinary or the County Judge, as the case may be, of each county, the power and authority to lay out, open, change, or discontinue the public roads and to work and have worked the same; to provide for levying a tax for road purposes; to prescribe who shall be subject to road duty; for the appointment of a superintendent of roads and other necessary officers; to provide how said roads shall be worked; to provide for levying a tax for road purposes; to prescribe who shall be subject to road duty; to provide how said roads shall be worked; to provide for the punishment of defaulters; and how and when this act shall go into effect in any county, and for other purposes.

SEC. 1. The Commissioners of Roads and Revenues, Ordinary or such other officer as has charge of county matters of each county of this state, shall have the sole right to lay out, open, change or discontinue public roads therein, and the sole management of the working of said roads, and said authorities shall have the authority to appoint a superintendent of public roads, when necessary, and also to appoint all overseers, guards and officers that may be required to successfully carry out the provisions of this article; to prescribe the duties of said superintendent, guards and officers that may be required to successfully carry out the provisions of this article; to fix the terms of office of the same, and to prescribe and pay such salaries as may be deemed proper.

SEC. 2.—WHO ARE SUBJECT TO ROAD DUTY.

Each male citizen between the ages of sixteen and fifty years shall be subject to road duty (except those who are now exempt by law,) and shall be required, when notified or summoned, to work on the public roads of the county of his residence for such length of time in each year as may be fixed or to pay such commutation tax as may be fixed by said authorities; provided that no one shall be required to work for longer than 10 days for any one year, nor shall said commutation tax be fixed at a sum that will amount to more than fifty cents per diem for the number of days worked required.

SEC. 3.—COUNTY TAX FOR ROADS.

The Commissioners of Roads and Revenue or Ordinary, as the case may be, shall levy a tax additional to any now authorized by law, on all the taxable property of the county, and the funds raised by said taxation together with the commutation tax heretofore provided for, shall be known as the Public Road Fund of the county; and shall be used and expended for the purpose of paying the salaries and wages, and for working, improving, and repairing the public roads, as herein set forth.

SEC. 4.—PROVISION FOR WORKING.

Said authorities are authorized to work, improve and repair the public roads as follows:

1. They may work a chain-gang (which said authorities are hereby empowered to organize said gang to consist of the misdemeanor convicts of the county, or of any other county in the state that may be obtained without cost for hire) and those who do not pay the commutation tax shall not be worked together.

2. They may work free hired labor and those who do not pay the commutation tax.

3. They may have said roads worked, improved or repaired by contracting for the same, in such manner as they may deem fit, with private parties or corporation, provided that if the work is done by contract the contractors shall be required to employ the chain-gang, if established, and the labor of those who do not pay the commutation tax, and to pay for the same.

4. They may employ or combine any or all of said three above mentioned methods, or may use any other method or system that may be desired for accomplishing the work necessary to put the public roads in good condition.

SEC. 5.—MACHINERY, TOOLS, &c.

Said authorities may purchase any and all machinery, implements, tools, wagons and stock necessary and required for working said roads, and may build such houses or stockades, and purchase any thing or article necessary and useful in handling and working the chain-gang.

SEC. 6.—FUNDS NOW SPENT.

Said authorities shall expend such road fund, in any manner they may deem best for putting and keeping the public roads in thorough condition and repair.

THE CITIZENS OF CITIES AND TOWNS SHALL NOT BE REQUIRED TO WORK THE PUBLIC ROADS OUTSIDE OF THE CORPORATE LIMITS, NOR TO PAY THE COMMUTATION TAX.

SEC. 7.—DEFAULTERS.

Any person who has failed or refused to pay the commutation tax when demanded by the officer appointed by the authorities to make such demand, and who shall, without a good excuse, fail or refuse to appear at the time and place appointed to work, when summoned or notified by the officer whose duty it is to give said summons or notice, by the rules of the authorities having charge of the public roads, or who shall fail or refuse to faithfully work as ordered by the officers in charge of the work when he has appeared, shall be fined not less than one dollar nor more than five dollars for each day he fails to work, or be imprisoned in the common jail, at the discretion of the authority trying the case, or be sentenced to work in the chain-gang for not longer than ninety days. If the authorities trying the case impose a fine upon the person convicted it may be with the alternative of other punishment allowed by this Section, in case said fine is not paid.

SEC. 8.—PUNISHMENT.

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored. We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longview hospital for the insane, at Longport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 29, 1902, in an awful condition. He had lost his mind almost entirely. His hardly knew one of the family, could not even find his bed; was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, he could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August. Now, and then he goes out well clothed ways. We pronounce him cured, as he can work and go anywhere like the other boys of his age. If any one wishes to ask any questions concerning this, they are at liberty to do so."

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind.

THE NUGGET.

DAHLONEGA, AUGUST 18, 1905.

Entered at the Postoffice at Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

SUBSCRIPTION PRICE:
\$1.00 - - - 12 Months.
50 cts. - - - 6 Months.
30 cts. - - - 3 Months.

The legislature will adjourn today.

A negro died from a spider bite in Rome last week.

The Georgia Association of Tax Officers meet in Atlanta on October 19th.

The senate killed the child labor bill by 28 to 17. Senator Lumsden voted against it.

Total cases of yellow fever in New Orleans up to Wednesday 1,080. Deaths 172.

The mint at Philadelphia has closed down by order of the government, throwing 600 persons out of employment.

They are burning sulphur in New Orleans in order to get rid of the mosquitoes, which have been spreading yellow fever in that city.

Last week a negro was publicly cremated in the public square at Sulphur Springs, Texas, by a mob for criminally assaulting a white girl.

The change in the style of ladies' hose from black to white, does not cut any figure with the country editors. They still go barelegged.

And still they come. W. W. Leathe, of Atlanta, has filed a suit for divorce, charging that his wife receives presents from A. B. Hays, of Savannah.

It is charged that a convict was whipped to death in Bartow county last week by Deputy Warden Tierce. He was arrested and an investigation is being made.

We see the cabbage snake is talked of again by some of our exchanges. This time they seem to be more dangerous than was reported before. We would advise our readers using cabbage to put plenty of grease in them and there will be no danger. Cabbage have always caused pain when cooked with little grease.

On Sunday much damage was done by a storm in New York. A trolley car was struck by lightning and fourteen persons injured. A boat house was also struck, killing one person and rendering many others unconscious. Many boats were capsized in harbor and lives endangered, causing five hundred emigrants to be in peril for an hour. A ferris wheel was stopped and one hundred people were exposed in mid air for an hour.

Ex Senator W. H. Cobb, who is well known in Dahlonega, was killed at his house at Royston, Ga., one night last week. Two balls entered his body, one ranging downward and the other upward. A day or two before Mr. Cobb's death he received a note from some one to "watch his home." So he told his wife that he would be gone out to his farm for a few days. Mrs. Cobb claims that she went to bed some time after ten o'clock and was awoken by some one on the outside, and thinking that it was a burglar shot, but the party proved to be her husband who had returned a day earlier than she expected. Then she screamed and sent for a doctor. A pistol and a rock were found in Mr. Cobb's pocket, proving that he was on an unpleasant mission. After the funeral Mrs. Cobb was arrested and required to give a bond of \$7,000, being charged with causing her husband's death. Mr. Cobb once lived in Dahlonega and was graduated at the N. G. A. College, and from what some of our citizens have heard of Mrs. Cobb's actions while here, do not believe the burglar tale. But time will tell.

Letter From Alabama.

REPUBLIC, ALA.,
Aug. 10, 1905.

ED. NUGGET:

As you know I am a Georgia boy, raised at Auraria, I have been in Alabama near three weeks, have paid visits to the following coal camps: Mineral Springs, Brookside, Republic and Birmingham, and find that a fellow can get all the work that he is looking for in the coal works or company—work of all kinds. Wages here are fairly good—from \$1.75 to \$3.08 per day of 9 hours. At Ensley, 8 hour system is in force. Some men are making as high as \$100 to \$140 per month digging coal, but the average laborer makes from \$65 to \$85. If a man can get all the cars he can load he can make from \$3 to \$8 per day, but the average is from 8 to 12 cars on the best runs, but everything else is high. Board from \$15 to \$20 per month, beef steak 30cts per pound, and no good either; butter the same. Meal and bacon are the only things in the eatable line that is as cheap as Georgia prices.

There are about 700 men here working, about 300 Union men. 700 came out of this camp July was a year ago. The mules they drive in the mines are treated very cruelly by most of the drivers. They run them into the banks and cars bruise and cut great places on them, some I see with their head skinned all over and bleeding. I think it should be against the law to drive a mule in the mines. Let them use mules. They are fixing to use mules here, I am glad to state.

Well, I could write 40 pages about the mines—their system, &c., but will close, by saying that Birmingham is the nicest town I ever saw. Lots of busting here and plenty of money spent every day. It has the most street cars of any town I have visited.

The First National Bank and Woodward buildings are the finest here—10 stories each. Business men are located in these two buildings. They have about 700 offices each. East Lake is the prettiest part of Alabama I have seen.

Nothing unusual to hear of men getting shot here. Two have been shot since I came, one white and the other black.

I met Mr. Lewis Strauss in Birmingham last Tuesday. He had lost his grip on the train by being mischecked, and he was also robbed of \$65.00 in Atlanta by a negro as he came through.

The Southern runs 4 passengers and dozens of freight trains direct through Republic daily.

Well, for my part, I don't like coal mining. I guess that I am worrying you. If this appears I will come again. There are lots of Georgia boys here. The climate and water are good.

ZED SUMMEROUR.

A negro in Atlanta caught up a bullet the other day after being shot in the neck.

Dr. Berry, one of the marine surgeons sent to New Orleans to help fight the yellow fever, was stricken down with this disease himself last week. Having had the yellow fever in Texas, it was believed that the Doctor was immune, but experience has proved differently.

My heard of thorough bred Jerseys is growing beyond my wants and I would sell several very fine milk cows at reasonable prices as soon as the hotel closes this fall. HENRY P. FANON, Porter Springs, Ga.

NOTICE TO TEACHERS.

The next general examination of applicants for licenses to teach in the Public Schools of the state of Ga., will be held on the 25th and 26th of August next. Those who desire to stand examination in Lumpkin county, will meet me in Dahlonega on the above dates. Aug. 8th, 1905.

J. J. SEABOLT, C. S. C.

Georgia, Lumpkin County.

To all whom it may concern: Sallie E. Christian, having made application to be in due form to be appointed permanent administratrix upon the estate of Samantha Christian, late of said county, notice is hereby given that said application will be heard at the regular term of the court of ordinary for said county, to be held on the first Monday in September, 1905.

Witness my hand and official signature, this 7th day of Aug., 1905.

G. G. EVANS, Ordinary.

Georgia, Lumpkin County.

To all whom it may concern: Mary M. Findley having in proper form applied to me for permanent letters of administration on the estate of Thomas H. Parrish, late of said county, deceased. This is to cite all and singular the creditors and next of kin to Thomas H. Parrish, to be and appear at my office on the first Monday in September, 1905, and show cause, if any they can, why permanent administration should not be granted to Mary M. Findley of said county, on Thomas H. Parrish's estate.

Witness my hand and official signature, this Aug. 8, 1905.

G. G. EVANS, Ordinary.

Georgia, Lumpkin County.

To all whom it may concern: Harvey Hulsey, having in proper form applied to me for permanent letters of administration on the estate of George Chapman, late of said county, this is to cite all and singular the creditors and next of kin of George Chapman to be and appear at my office on the first Monday in September, 1905, at 10 o'clock a. m., and show cause, if any they can, why permanent administration should not be granted to the County Administrator of said county, on George Chapman's estate.

Witness my hand and official signature, this 7th day of August, 1905.

G. G. EVANS, Ordinary.

The New Rural Route.

MURRAYVILLE, GA.,
Aug. 14, 1905.

EDITOR NUGGET:

Mr. Joe A. Elrod has been appointed rural carrier, and Gordon Thompson substitute on route No. 1 from Murrayville. The post-offices at Stobo, Cross Roads, Tesnate, Grace and Wahoo will be discontinued and rural services go on the 1st day of September. It is desired that all who contemplate putting up boxes, will have them up by that day, so that the carrier can distribute blanks to be filled out by the patrons, so that the carrier distributing officer may perfect their rolls at the earliest possible time to enable them to give prompt and satisfactory service to the patrons.

D. PAYNE SMITH, P. M.

When the Murrayville R. F. D. No. 1 commences service the first day of September the following post-offices will be discontinued: Stobo, Cross Roads, Tesnate, Grace and Wahoo. A part of this runs through Lumpkin county. Murrayville route No. 2 has been surveyed. It will also serve a good territory, going by Albert, New Bridge, Price, and Little. This route has been favorably reported upon by the inspector and will likely be established.

Local News.

As we go to press, it is reported that Mr. Asbury Free is dying.

Persons wanting shingles should go or write to Hutcherson Bros., Freda, Ga. If

What's the use of crying out hard times in Dahlonega when parties send off frequently after liquor that costs \$5.00 per gallon?

If you need a two horse wagon, call on A. J. Anderson, Wier, Ga. They are made from home grown timber and ready for hard service.

Corn is still as cheap in Dahlonega as when first made, yet meal retails at 80 cents per bushel on account of being unable to get it ground without a loss.

We publish on our first page this week the law and rules governing the working of the public roads of Lumpkin county, which are full of interest to every citizen within her borders.

All subscribers getting their papers at any of the post-offices that are going to be discontinued next month had better notify us in time so we can send them to Murrayville to be carried out by the free delivery.

Mr. and Mrs. J. B. McClure and Miss Birdie Carley, of Athens, Ga., Miss Annie Lou Sewell, of Lexington, Ga. and Mr. Garret Cochran, of Gainesville, Ga., were on a visit to friends and relatives in this county last week.

From what we learn there is another mill "sucking itself" in Dahlonega, judging from what our business men and all other persons say who weigh their corn before sending it to mill. It won't even hold out when they pay the toll. Some one is going to get into trouble.

Jones Anderson was arrested by Marshal Grizzle last week. He is charged with illicit distilling. The circumstantial proof was pretty strong against him, but Com. Barker continued the case until the 22nd inst., at which time the defendant says he can prove that he is not guilty. Anderson lives in White county.

After Wahoo services were over Sunday night Ed Burges started home with Miss Peck, a sister of Mr. Columbus Peck. Columbus came along and told Ed to go his way that his sister could reach home without him, or something to this effect. The young man refused to obey the order. Columbus got down off of his mule, and then there was a separation between the girl and her escort.

Mr. J. S. Hollinshead, the state bank examiner, was here in the discharge of his duties last week. This is the first visit the Bank of Dahlonega has had from an official of this kind since it has been established. When it was changed from a private to a state bank some time ago, by an oversight they failed to take notice of it at headquarters, and the proper transfer was not made until a few days ago.

Judge Evans commenced working the public roads of this county this week under the new law. There is an overseer for each small district, and two each for Dahlonega and Auraria districts. These overseers are under a two hundred dollar bond for the faithful performance of their duty, and we feel confident that Lumpkin county will soon have good roads, for the first time since its establishment.

We learn that Charlie Anderson, of Crumby's district, got so full of corn juice while out on a visit the other day, that he couldn't get back home. His parents desiring their sons presence, took a one horse wagon, put the young man in it and pulled him home. This act of these old grayed people show the love they have for their son. But the load was too heavy for them and Charlie ought not to get so full any more.

The clerks of churches will save time by having their blank church letter printed at THE NUGGET office.

Mr. J. E. Pruitt of this county, says that he thinks of moving to town and completing his course in college.

We have just received another supply of good, nice stationery. If you need any printing send us your order.

Mr. J. C. Laurimer, of Lake City, Fla., is stopping at the Tate House, who expects to remain in Dahlonega for several days.

It has been asserted that persons who borrow their county newspaper every week are mean enough to steal. What about it?

Fred Jones and Miss Bessie Walden were selected last Saturday to represent the lower Cane Creek school in the county oratorical contest.

There will be a box supper at Oak Grove school tomorrow night. The proceeds of which are to go for the purchase of books. Everybody invited.

Mr. John Head, who left here seventeen years ago while a lad, came back for the first time since his departure last week. He now lives in Barlow county and is doing well.

Prof. O'Byrne, who recently came in from Cripple Creek, Colorado, says that he is very much surprised in the ways of the people here. Out where he came from work goes on Sunday same as any other day.

Each local column of THE NUGGET contains more lines to the column than papers being double leaded, which will amount to a good deal of reading matter during the year—thousands of lines. So you can observe at once that THE NUGGET is "all wool and a yard wide."

The other night John Austin, col., was relieved of his watch by some one while he was asleep. He left the door unfastened so his folks would not disturb him from his slumbers when returning from church, and the party who was aware of this took advantage of the opportunity.

The board of trustees of the Dahlonega public school will adopt a new plan this year by requiring all pupils entering, to first procure a ticket of admittance from the secretary, and non residence will have to pay their tuition fee before receiving their tickets. The school is free to all children living within the corporate limits, and only one dollar per month to non residents.

The rural mail route inspector has come and gone. He went over three routes in this county while here, and it is pretty certain that he will recommend two of them if not three. The gentleman saw at once the necessity of such lines in this county who stated that we ought to have two more. Those mail lines would bring a lot of money into our section and if we do not get them it will be our own fault.

Last Saturday Col. Charters, after buying a pair of mules from Mr. Henry Wimpy, got in the buggy to take a ride. Soon afterwards one of the animals commenced kicking so high and fast that the Colonel lit out of the buggy, slightly spraining one of his ankles. The Colonel was deceived by getting this kicking animal and wasn't prepared, or didn't care at least, to drive a mule with both hind feet up in the air.

On the night of the 8th some boys made it convenient to visit Mr. Hanson Chapman's melon patch as they returned from Wahoo meeting. After cutting up some in the patch they carried off several and filled up on them. The parties were supposed to be good boys and above suspicion which surprised Mr. Chapman when he followed and saw them eating them. There was no use for the boys to this for Mr. Chapman never refuses any one melons who ask for them.

Chickens retailed here at 12¢ a pound last week.

You will find at John H. Moores a full line of fresh groceries and canned goods all the time.

Mr. Milt Loveless, who has been pyrites mining down the country for some time, returned last Saturday.

Mr. Oaka Oaks was wedded to Miss Carrie Kanter on the 10th inst., by Rev. J. K. Bearden, of this county.

Mr. W. H. Jones left last Saturday for South Georgia on a visit to his brother. Mrs. Jones went to her parents in Dawson county.

Mr. Charlie Moore recovered so he could come home with his father from Milner on Friday afternoon. Charlie is looking pretty thin.

Mrs. Bell, after spending several weeks here with her parents, Mr. and Mrs. J. F. Castleberry, returned to her home in Atlanta last week.

The heaviest rain here for a long time, came last Sunday while before night. It fell in torrents for close to an hour, flooding our streets with water.

Mr. W. D. Seabolt, who was teaching a school in Shoal Creek district, has given it up and accepted a position as a road overseer. We suppose that it pays him better.

The State School Commissioner has notified County School Commissioner Seabolt that he does not think that it will be necessary to hold any other examination this year than the one already advertised.

There is not a single lawyer, doctor, or business man in Dahlonega who does not take THE NUGGET. Those having anything they wish these gentlemen to see should remember its advertising columns.

Mr. Carter, president of the Bank of Dahlonega, arrived in our city last Saturday, being the first time that he has been here in more than a year. Such enterprising men as this gentleman is always a welcome visitor.

If you want one of the best sewing machines on the market, call on J. F. Moore & Co. Besides machines they keep everything else that is found in an up-to-date store, including all kinds of miners' supplies.

Last Saturday when Judge Evans furnished the overseers with the law and instructions, governing the working of the public roads in this county under the alternative road system, Mr. Henry Wimpy, one for the Dahlonega district, and Mr. Fricks, of Nimblewill, declined to accept. So Mr. John Higgins was appointed to fill Mr. Wimpy's place, and Mr. Henry Seabolt will take Mr. Fricks.

Notwithstanding the rainy weather, a number of our country friends were in Dahlonega last Saturday. Some came after the road tools and others to make out claims for pensions. Two made application that ought to have what the law allows, being Mr. Bill Bryson and Mr. Jake Loggins. The age of the former renders him unable to do but little, and the latter is not only old but has a fractured skull, caused by the enemies shell in the sixties.

A few days ago Sherman Baker of this county, swore out a warrant for Mr. W. F. Bryson, a school teacher in Mill Creek district, because he whipped his boy. Then it is said that one of Mr. Baker's daughters went to the school house and "preached the poor teacher's funeral." And we are told that some of them afterwards cut Calvin Perry's gate and left their school books in the crack of the fence where they took all the rain and doubtless were ruined. Some people do many strange things very often when they get mad. We suppose Mr. Bryson waived examination, as we have not heard anything further from the matter.

It rains every day.

Mr. Fred Wood has returned to Auraria from Alabama.

Mr. and Mrs. Ben Smith visited White county last Saturday.

Our office had a pleasant call on Wednesday from Mr. N. P. Riddell and his father.

We have heard of several more cattle dying in Lumpkin county within the past week.

Porter Springs, Auraria items and much other interesting matter crowded out this week.

If you want to buy any good full blooded Jersey cows read Col. Farrows ad elsewhere in this issue.

A new school house will be erected at once for the benefit of patrons in lower Cane Creek district.

Merchant Ben Anderson has been over to Blue Ridge this week on business connected with his father's estate.

Col. and Mrs. J. H. Moore now occupy the upper story of the M. G. Head house but will still take their meals at the Villa.

Mr. Homer Strickland, of Swainsboro, is up on a visit to his parents and friends here this week, and we are all glad to see him.

Estrayed a week ago—a black, hornless cow, with short legs. Any information regarding her will be gladly received by Henry Edmonson.

Sawed lumber is getting scarce in this county. Mr. W. B. Gurley had to send to Gainesville after some scantling last week. Hauling it 25 miles makes it quite expensive.

Persons eating melons should not scatter their rinds about over the streets, but put them in a pile so they can be carted off. Then it will not take so much time to gather them up.

Notwithstanding the inclement weather last Saturday evening, there was a very good attendance at Miss Tackabury's lecture, all of whom were perfectly delighted with the lecture, and Miss Tillson's music on the violin.

The cleaning off of the cemetery was awarded this week to Johnie Ferguson and Bud Fortner, and Will Ward, at a cost of forty dollars. Private or enclosed lots are not included, as most of the people desire to look after their own lots themselves.

It turns out that the report that Mr. Marion Bowen, postmaster at Garland, charged with accusing his brother-in-law, Mr. Marion Parks, while he was postmaster at that place, of taking postage stamps enough to send off and buy him a watch, is a mistake, yet we published it last week just as it was rumored. They got the Bowens mixed up, and the report is that it is Mr. F. E. Bowen who made this charge, in addition to others which we did not publish.

As will be seen elsewhere in this issue the charge is branded as being false, and we publish the cards with pleasure. People should be more careful in starting such reports. They not only cause parties trouble but make extra work for the printer and take up much space in explanations.

The colored pastor of the Methodist church came in with his family last week, rented a house and has decided to locate here until his conference meets. He has brought with him a person who he calls "Miss Harris," who is said to be a kind of a preacher too. "Miss Harris" talks coarse and has the features of a man, causing some to say that this person is a man dressed in women's clothes, believing it so strong that they think an investigation should be made to see which we have in our midst, a male or a female con.

We understand that Sister Harris proposes to walk on broken glass barefooted at the end of the meeting. This announcement has been made in order to get a good congregation at each meeting, so as to be more successful when taking up collections.

Lester Anderson, of Dawson county, was bound over here last Tuesday, charged with illicit distilling.

On Sunday last Harlie Ricketts went to Joe Davis' jug and filled up two bottles with liquor without the owners consent. Joe aimed to swear out a warrant for him on Monday, causing Harlie to leave for parts unknown.

There has been some real estate changing hands over in Wahoo district. Mr. Alonzo Peck has sold his farm to Messrs. W. D. Abercrombie and Colonel Pierce. And Mr. Alonzo Peck and Mr. James Peck have bought Mr. John Huff's farm.

Ferman Carroll, col., was arrested last Tuesday and locked up for stealing a set of harness from B. R. Meaders & Sons and giving them to a negro girl just across the street from their barn, named Wheelchel. Ferman said that he was going to marry and we suppose that he meant this for a wedding gift. Later the case was compromised.

Mr. W. D. Haney showed us a little serpent, name unknown, last Tuesday which he found in his boat the Wednesday previous, three feet long and about the size of a large knitting needle. He had it in a bottle of water and it was squirming about all the time. It was white and fuzzy and didn't seem to have any mouth, being blunt ended. Can you name it?

A Card From Messrs. Parks and Bowen.

Mr. Editor: Relative to a statement in last week's issue of THE NUGGET, concerning some "friction" between Bowen and myself, I desire to say that I have no better friend in Lumpkin county than Bowen, the P. M. at Garland. Our business relations were perfectly harmonious at all times, and there has never been the least of enmity between us. We dissolved partnership for the simple reason that I bought this place here in Hall county, where I now live, and needed all my capital from the store to pay for it. I stood the examination for this rural route here from Murrayville, it is true; but it has nothing whatever to do with Garland post-office and the postmaster at that place did nothing against me. As to my taking stamps from the office and using them in the purchase of a watch, I say it is a lie. This was evidently reported to THE NUGGET by some little "tattler," whose lying tongue is the worst curse that the devil has ever bestowed on the son of man, and who being of too cowardly a disposition to face the matter in a business way, has thought to "whip the devil around the stump" and defeat me in this route from Murrayville.

My connection with the post-office at Garland has always been perfectly straight and I defy any man to prove that it has been otherwise. I am ready to face any of my work with that office and when it is proven that I have defrauded it, my bondsmen are at my back ready to pay the penalty.

J. M. PARKS, Murrayville, Ga.

GARLAND, GA., AUG. 15, 1905.

Mr. Editor: I notice an article in THE NUGGET stating that Parks and myself have had some trouble, and that I have reported him to the department, alleging that he used postage stamps contrary to the law for the purpose of buying a watch.

I wish to state that this report is a lie, and the man that told it told a lie. I further state that I am satisfied that Parks is not guilty of any crime, for I was assistant postmaster as long as he was postmaster and helped in the office, and I am satisfied that such a thing could not have happened without my notice. In my opinion the report has been made by some one at enmity with him in getting the route.

The reason we separated, was because he bought that place he now lives on.

Parks and I are friends and have never had any trouble at all. We have not even had a short word.

The route Parks applied for does not discontinue Garland postoffice.

The following letter was addressed to Inspector Graham:

GARLAND, GA., AUG. 14, 1905.

Mr. GRAHAM, GAINESVILLE, GA.

DEAR SIR: When you mentioned about there being a charge against Parks and that I had made the charge, I thought what you meant. But since I have read THE NUGGET I see it in print. I enclose you a scrip of it. The report is entirely false. Parks and myself have never had a difficulty. We are friends and I have never made a charge against him.

Yours truly, MARION W. BOWEN, P. M., Garland, Ga.

Mining News.

Samuel Castleberry, with the use of a giant, is doing some profitable mining on the Standard property.

Superintendent McAfee of the McAfee-Lind, informs us that he already has a lot of ore out of the mill and will start it the first of next month, expecting to be able to keep it running one shift regularly after that time.

They made another rich strike down at the Barlow in the shaft on Friday afternoon. Rich strikes at this celebrated mine does not surprise any of the natives because it has long since proven itself to be one of Georgia's best gold mines.

Wm. Hamp, Tom Johnson, Jas. Adams and his son have been engaged for several days in taking out ore and washing it into a bin at the Hand mill, fifteen stamps of which were put in operation on Monday. It is their intention to supply this number of stamps with ore and keep them running one shift with the labor of the four alone. This is what you might call economical mining.

A large number of hands are at work cleaning out what is known as the Dawson canal, which heads in Lumpkin county and used to supply the Harris Branch mine in that county. Mr. Rogers, of the Battle Branch mine, is going to use the water to operate his property. Only a portion of new ditch of something over two miles will have to be cut to get it on his property. Plenty of water is what is needed to work a gold mine and this is what Mr. Rogers is going to have.

Messrs. Miller and Sovey are bustling around these days in the interest of the Bunker Hill Mining Co. Their dredge is giving excellent results and will continue to do so as long as attention is paid to the work. The Company is going to start work in a few days on the large reservoir that will hold the water that will be used to hydrant the belt and also work the placer on Cain creek. A great deal of credit must be given these gentlemen for the persistent manner that they have forged the Bunker Hill property to the front. We feel absolutely sure that this mine will be paying handsome dividends to its stockholders ere many months have come and gone. We understand that they are going to raise their stock in a short time, as recent developments more than substantiate the fact that the stock should go to par.

Judge Kinsey granted a charter to the Mountain Valley Mining Company here latter part of last week and the company will be organized in a very few days and active work will begin on its property. It includes the celebrated Castleberry property, besides other splendid lots, making a total of two hundred acres. The Castleberry property has been idle for many years. The owner would not let any one work it, hoping that he would get in shape some time to be able to operate it himself, even refusing a very large sum for it many years ago. Recently Mr. Castleberry decided that he was growing too old and feeble to operate a gold mine. So he let it go. Messrs. Sovey and Buell, two of the promoters of this new mining enterprise, and by the way a couple of the most energetic and wide awake gentlemen that we have ever had in this country, went to work and have lost no time in the development of the entire property. They propose to do a straight forward, legitimate business and have opened up numbers of places so visitors can have some idea of the value of the property. A pump will be installed so as to better enable them to work the mine. We wish we had more just such enterprising men as the two gentlemen named above. They keep moving all the time and are a big help to the laborers who are dependent upon their daily work for a living, besides benefitting the entire section as well the investors.

SEC. 9.—DEFAULTERS BY WHOM TRIED.

One or more of the Commissioners of Roads and Revenues in counties having Commissioners, and the Ordinaries in counties where the ordinary has the charge of county matters and public roads under this article, and the County Judge; in counties where said Judge has charge of county matters and public roads, are empowered to try all defaulters, and said authority shall hold court and courts for the trial of said defaulters, at any time or times, and at any place or places in the county that may be fixed by said authority; provided that ten days notice be given of the time and place, or times and places to defaulters. That defaulters shall be summoned for trial by, or arrested by such officer or officers as the Commissioner or Ordinary or County Judge may appoint, or by any lawful constable of the county.

SEC. 10.—PROVISION OF FORCE ON RECOMMENDATION OF GRAND JURY.

This article shall not go into effect until it is recommended by the grand jury of said county. Said recommendation to be made at any term of court, and the operation of this article shall be suspended in any county of this state upon a like recommendation of the grand jury made at any term of court after the elapse of three years from the time this article goes into effect.

GOVERNING LUMPKIN COUNTY. COURT OF ORDINARY LUMPKIN COUNTY. SITTING FOR COUNTY PURPOSES. AUGUST TERM, 1905.

The grand jury at the regular April Term of Lumpkin Superior Court, 1905, recommended the Alternative Road Law, as contained in Vol. 1, of the Code of 1895, Section 573 to 583 inclusive, and the Acts of 1897, the Ordinary has this day, in open court, sitting for county purposes, adopted the following Rules and Regulations governing the working of public roads in said county:

1. Ordered that every person subject to road duty in Lumpkin county, shall be required to work 3 days on the public roads of said county for the remainder of the year 1905, or in lieu thereof to pay fifty cents per day for each day to be worked, as a commutation tax, which tax shall be paid to the Overseer of the district on or before the day or days of working, provided said tax and work may be discharged in full by paying \$1.50 cash, as above stated.

DISTRICT OVERSEERS.

2. Having appointed one or more persons as overseers for each Militia District in Lumpkin county, it is ordered that each Overseer shall receive for his services one dollar per day, for each day in actual service in this capacity, and such pay for attendance on court at a trial of defaulters, or other necessary matters, as may be just.

3. It shall be the duty of such overseer to make a full list of all road hands in his district, which shall be recorded by him alphabetically in a book furnished him for that purpose, which shall be by him properly corrected at any time as may be necessary and shall furnish the Ordinary with a list of said hands.

4. He shall make careful entries in said book, opposite each name, showing when such hand worked, or the amount of commutation tax paid, or both, or the default, if any, and shall designate any who become over age.

5. He shall have general direction of all roads and hands in his district. He shall receipt for and be responsible for all tools turned over to him by the Ordinary. He shall summons all hands to work on the road at least a day previous to the time designated, notifying them of the time and place of work. The summons must be served by the Overseer personally or by leaving it at the hands most notorious place of abode. Provided in case of emergency a previous day, notice shall not be necessary.

6. All hands reporting for duty shall be kept by him at work for ten hours each day, to-wit: From 7 o'clock a. m., to 12 m., and from 1 p. m. to 6 o'clock, p. m.

7. All hands failing to appear at the time designated, or appearing and failing to faithfully perform the work assigned them, shall be reported as defaulters.

8. The overseer must not exercise any discretion in the matter of reporting defaulters, but must return as defaulters all who having been summoned, fail to appear from any cause.

9. For each defaulter whom the overseer fails to report, or fails to give a receipt for tax or days worked, he shall be subject to a fine not less than one dollar nor more than five dollars for each of such failures to be deducted from his wages.

10. In case any road in his district becomes suddenly impassable, or any common road bridge needs repairs, or such like emergency occurs, he shall summons a sufficient force of hands to do such work as may be necessary, and the time consumed by them in such work shall be deducted from their regular road work.

11. He shall measure, where it has not been done, all roads in his district, and at the end of each mile set up a post or mark, designating the number of miles to the court house in Dahlonega, which said post will be furnished him on application to the Ordinary.

12. If any live stock or implement other than farming tools are necessary to work or repair the roads, the overseer may receive them in exchange for the labor of hands, (provided the county does not furnish,) but in no event, without authority from the Ordinary, shall he pay out any commutation tax received by him for such stock or implements, or contract to pay the same.

13. He shall make a written report to the Ordinary, on the first Monday in each month, accompanied by his book of road hands, his stub book of receipts, certificate of the County Treasurer, as to total amount of commutation tax turned over to him, and all commutation tax received by him, which report shall show the number and names of all hands, the number of days each hand worked, the general condition of the roads in his district, and all other information which may be required of him.

14. Should he be called upon by the Ordinary, at any time he shall summons any required number of hands in his district to work under the direction of the Ordinary, when such special work may be engaged in his district, and shall himself perform such other work as may be required of him, in connection with such special work as may be required of him by the Ordinary.

15. The Ordinary has the sole right to fix, annually, the number of days to be worked by each road hand, and the amount of commutation tax to be paid, instead of work, as prescribed by the general road law.

16. Road hands may be required to work upon any public road in the Militia District within which they reside. Respect

to be given to the convenience of the road hands as to working roads, (as far as may be possible), nearest them.

17. When a road hand has been summoned to work by his District Overseer, he shall appear and work at the time and place designated, or give the Overseer sufficient evidence of having paid his commutation tax, a receipt for such tax being the highest evidence of such payment, but no receipt for such tax shall be recognized by the Overseer unless in the printed form, known to be used at that time. In default of appearing, or producing satisfactory evidence of payment of commutation tax, it will be the duty of the Overseer to report such hand as a defaulter.

18. When a public road is a district line between two districts, unless said road has been assigned to a particular district, the Overseers shall apportion such road among themselves.

19. All commutation tax shall be paid to the district Overseer, who must receipt for the same; or if time is worked out, must receipt number of days worked, on blanks furnished for that purpose, filling out and keeping in his Blank Receipt book, in all cases, the stub attached to the same. Said Overseer may, at the time the hand is summoned to work, receive such tax, receipting therefor as herein provided.

20. All defaulters will be tried by the Ordinary, and at his office in the Court House in Dahlonega.

By Order of the Ordinary, sitting for County purposes.

This the 7th day of August, 1905.

G. G. EVANS, Ordinary
of Lumpkin County, Ga.

City Tax Assessment 1905.

At a meeting of the city council on August 7, 1905, the following taxes were levied for the support of the City of Dahlonega, Ga., for the year 1905, to-wit:

To retire school bond 1905 and pay accrued interest, 6 cents on each one hundred dollars assessed.

For the support of the city public schools for the years 1905 and 1906, 30 cents on each one hundred dollars assessed.

For marshal's salary 9 cents on each one hundred dollars assessed.

For general expenses of said city for 1905, 7 cents on each one hundred dollars assessed of property of said city, making a total of 92 cents.

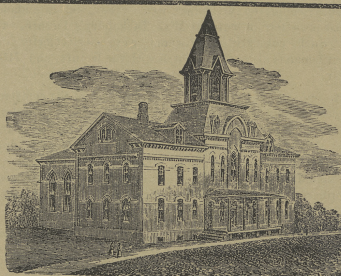

Done by order of council, this Aug. 7, 1905.

RUFUS H. BAKER, Mayor,
WM. J. WORLEY, Clerk.

Georgia, Lumpkin County.

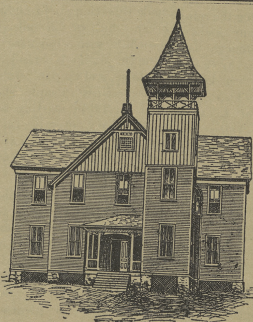

To all whom it may concern:
B. F. Anderson, Jr., having in proper form applied to me for permanent letters of administration on the estate of Henry F. Anderson, late of said county, this is to cite all and singular the creditors and next of kin of Henry F. Anderson to be and appear at my office on the 1st Monday in September next, by 10 o'clock a. m., and show cause, if any they can, why permanent administration should not be granted to B. F. Anderson, Jr., on Henry F. Anderson's estate.

Witness my hand and official signature, this 7th day of August, 1905.
G. G. EVANS, Ordinary.

Dahlonega Graded School.

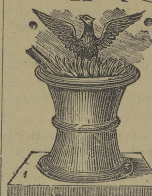

DAHLONEGA is one of the best Educational Centers in the state. In addition to the Agricultural College we have a well graded public school system,

FREE TO EVERY CHILD

who is a citizen of the town. People who have little children to be educated cannot find a better location. Rents are cheap and the cost of living moderate. Why not move here to give your children a nine months school term instead of having a short term of two or three months as you now have? The children who complete the course in the graded school enter college here without additional examination.

If cheap living, low rates and a nine months school absolutely free for your children is not an attractive proposition, where will you find one?
W. L. ASH, Principal.

A Living Monument.

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city.

What a remarkable record—a breathing, thinking, moving monument, composed of human lives,—that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following:

"I feel indebted to Dr. Miles' Heart Cure for my life. I desire to call the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shortness of breath, after any little exertion, palpitation of the heart, and at times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon the street. One day I read one of your circulars, and immediately went to my druggist and purchased two bottles of the Heart Cure, and took it according to directions. With the result that I am entirely cured. Since then I never miss an opportunity to recommend this remedy to my friends who have heart trouble; in fact I am a traveling advertisement for I am widely known in this vicinity."

J. H. BOWMAN,
Manager of Lebanon Democrat,
Nashville, Tenn.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Heads up! Eyes front! Forward, march!

What matter if the step be slow and the jacket no grayer than the head of him that wears it? What matter if the tattered flags that wave above you belong to no country; that to others has come the laurel of victory, to you the rue of defeat?

Time was, when the tread of your marching feet, the shrill song of your bugles, the hoarse call of your drums and the magic of your battlements were the voicing of a people's hopes the incarnation of their dreams. Time was, when the world thrilled to the glory of your valor and the current of its history found a check in the daring of your challenge?

And that is past.

Today, you march to the music of memories, an army of dead days that know no waking. And yet, Heads up! Eyes front! Forward, march!

For southern life has not forgot and, as we stand with a touch of mist before the eyes, there comes crowding back the story of Manassas, of Shiloh, of Gettysburg, of Fredericksburg and Appomattox, and we see again the men who gave them immortality. God asked of you great things and to Him you gave the answer of great deeds.

The toll is over, the work is ended, the day all but done. In its morning you bore our hopes, in its twilight and till evening comes, you bear our love and reverence.—Louisville Times.

Two hundred and nineteen cars of peaches have been shipped from Marietta this season. This is a big thing for farmers. We have plenty of suitable land and could have fine orchards in Lumpkin county and the farmers would make big money too if we only had railroad facilities.

Why Observe Work-Day for the Orphans?

Every humanitarian, christian and good citizen, young and old, ought to give his earnings on Work-Day, Saturday Sep. 23, to some of the Orphans Homes in Georgia, because:

1. We owe it to the dead fathers, our brothers, who would gladly change places with us and work for our orphans.
2. We owe this little blessing to the broken hearted orphans.
3. We owe it to our children to make good companions for them out of those who otherwise might degrade them.
4. We owe it to the state to save them the large expense of these who might otherwise become criminals.
5. We owe it to Jesus to "seek and to save" every child from drifting into immoral or degrading lives.

The Georgia Orphanage help thousands of waifs, babies, cripples, children in immoral surroundings, as well as orphans each year and every one should gladly try to interest his friends so that Work-Day results will provide for every suffering child. Saturday Sept. 23, is Orphans' Day.

To Love His Wife.

An important question seems to have put some of the French people to thinking. It has been suggested by an eminent playwright that the law should require a man to love his wife. Heretofore the marriage code has only mentioned mutual esteem, fidelity, and honor, leaving love entirely out. But Herve has suggested that love should be included in the code. Many Frenchmen are said to be living in constant fear lest this suggestion should be put into effect.

As a rule the French people marry because it is to their interest or convenience. They seldom, and especially in high society, think of love, but merely make marriage a matter of business. Every father is expected to provide a dowry for each of his daughters. If he is able to provide a handsome dowry for his daughter, then he can select a husband from the choice of the land, but according to the dowry so the command for the husband must be. The girl has no choice in the matter. The parents or near relatives makes all arrangements for the marriage. In the middle or lower classes, marriage is merely a matter of shillings and pence. If a man owns a few acres of land and a few cows, he doesn't consider a girl with less land and cows eligible for his hand.

It is strange to say that with these peculiar ideas about marriage, there are few unhappy marriages in France.—Ginnett Journal.

The Philadelphia Record says that as long as the government keeps on shipping insect powder by the ton to the Isthmus and bringing back from the Isthmus fever-frightened employees, the president wastes his breath in denouncing the home-returning persons as alarmists and deserters. There is no disguising the fact that the canal strip has not been made a safe place to stay for the canal diggers. Sanitation must go before excavation.

It is said that Japanese women never express an opinion contrary to that of their husbands. The "little brown men" seem to be successful on more battlefields than the war despatches have told of.

JIM CROW CARS.

Republicans say the Esh-Townsend Bill Will Abolish Them.

The Macon Telegraph, The Mail-Telegram of Fort Worth, Texas, and other representative Southern newspapers have found a sure enough "nigger" in the woodpile."

Former United States Senator Chandler, of New Hampshire, says he favors national control of the railroads because it would abolish Jim Crow cars in the South. Under the Esh-Townsend Bill, if it becomes a law, a negro man can go in any car on an interstate train and take a seat with any passenger, a white lady or a white man. He could do it on trains between Atlanta and Birmingham, Atlanta and Chattanooga, Savannah or Macon and Jacksonville, Americus and Montgomery and so on.

Walker D. Himes, of Kentucky and other able lawyers say that Senator Chandler is certainly right in his construction of the law and that national control of the railroads will do away with separate cars on interstate trains. Some of the papers are calling the attention of their congressmen to their features.

Letter From A. W. Woody.

YACOLT, WASH.,
Aug. 7th 1905.

DEAR WILL:

Enclosed, please find \$1.75 order, for which send for one year The Nugget and Atlanta Journal. I see that is your club rates. I have been away from old Georgia a long time, but still I like to hear from back there. And I see you are pretty good to gather the news from the back woods and mountains, and that is what I want to hear.

The happenings among the people of old Lumpkin is what interests me, as years ago I almost know all of them, and there is still

GO TO
W. P. PRICE, Jr.,

FOR YOUR

CHOICE GOODS.

Boys
Clothing
A SPECIALTY.

GROCERIES

and EVERYTHING else.

a warm spot in my bosom for them.

Will, I am still a republican, but not like some down there that you wrote up some time ago, because they got mad and stopped their paper because you gave them "hail columbia" for being a republican. It only makes me smile to see you kick, kick, kick, and call out democracy so loud.

We go ahead and elect a president just the same, and a good one too. It reminds me of the story they used to tell of the brand that sat all night and barked at the moon.

So do as you have been doing, give the haps and mishaps of the people of old Lumpkin, and when the time of day comes for politics, just say what you please and I will not kick. If I do, I am so far away you cannot hear me.

We are all well and getting along fairly well.

Will, V. Tate and Rancey Cain are both here and doing well. Old man Jake Cain and wife ought to be proud of Rancey. He is a good boy. He is making money, and the beauty is, he takes care of it.

While I am writing, the train is passing by my house loaded with 35 cars of logs, each car has from 8 to 10 thousand feet of lumber on it, and two trains per day. So you can see I am in a lumber country.

I am doing just now, as well as a country editor does in blackberry time. My 13-year-old boy was out shooting birds a few days ago and a nice venson tried to run over him, but he came back minus 7 cartridges had been loaded with number 6 shot, but the deer did not run over him. I don't like to say much about that, for it's not allowed to shoot them at this time of the year.

After extending my good wishes to The Nugget and all my old friends back there, I close.

A. W. Woody.

The big increase of taxes in Georgia shows that old Georgia is climbing up the ladder of prosperity fast.

Methodist.—Services every Sunday at 11 and at night. Rev. C. P. Marchman, Pastor. Prayer meeting every Wednesday night.
Sunday School at 9 o'clock.
Presbyterian.—Services only on 1st and 3rd Sundays.
D. J. Blackwell, pastor.
Sunday School 9 a. m.

BARBER SHOP.

WHEN wanting a nice clean shave, hair cut or shampoo, call on Henry Underwood. First-class barber shop in every respect, where he will be found ready to wait on you at any time.

THE NUGGET.

DAHLONEGA, AUGUST 25, 1905.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

Official Organ of both City and County.

SUBSCRIPTION PRICE:
\$1.00 - 12 Months.
50 cts. - 6 Months.
30 cts. - 3 Months.

Bail has been refused V. T. Sanford at Rome, Ga.

The next session of the Georgia mayors will be held in Augusta.

The legislature has given us eight more counties in Georgia.

The liquor tax in Georgia will be \$300 per annum for this year.

Mrs. W. Y. Atkinson has been appointed postmaster at Newnan, Ga.

The bill to abolish the negro troops in Georgia passed both houses.

Judge Wellborn, of Blairville, has been re-appointed State Librarian.

The state reformatory will be established in Baldwin county within the next few months.

Number of cases of yellow fever up to date Wednesday night in New Orleans 1,503, deaths 214.

The mayor of Gainesville fined E. M. White \$20 and cost the other day for insulting Mrs. Tirza Sisemore.

Drunkness and disorderly conduct on the public highway have been made a misdemeanor in Georgia.

Joe Hill Hall is a strange piece of humanity. He favors negro troops and opposes farmers' institutes.

The legislature has made it the duty of all tax receivers to take the census of confederate soldiers and widows.

J. P. Richie was elected tax collector of Fannin county last week over J. V. Curtis, by a majority of 87 votes.

If the city of Gainesville does not fix her side walks according to promise, she stands a chance of losing her free delivery system.

Dr. Leach claims that he has a treatment of arsenic that prevents yellow fever and thousands are flocking to him at New Orleans.

The everyday school authorities at Chestnut Mountain, Hall county, had Judge Kimsey to enjoin a singing school the other day. What next?

W. W. Dawkins and Maggie Haynes, of Belton, S. C., were arrested in Gainesville and jailed last week because they came there and passed off as man and wife.

The Georgia legislature adjourned at 9:45 o'clock last Friday night, and the pictures of the members in the Journal and Constitution are a thing of the past.

The Marietta Journal asks if a jury should be "kept out as long as the jury trying Sanford in Rome—six days—in order to force men to make a verdict to regain their own liberty?" No.

You can't pick up a single daily paper but what you will see an account of some railroad wreck or other accident, causing the loss of many lives. These frequent wrecks show that somebody is to blame.

The executive committee of the Populists party at its meeting in Atlanta last week, decided to put out a full state ticket. Then the democrats will have a chance to go for the populists instead of each other. But a very big fight is not expected.

A negro was mobbed in Mississippi last week for shooting a white man. Lynchings will never cease as long as negroes continue to murder men and outrage white females, matters not how much law there is against it or what some people may say about it.

Mining News.

Wood is being cut now to start up steam at the Consolidated Co's chlorination plant.

Moose and McDonald now have their lift in good working order over on the Columbia property.

They finished covering the Singleton mill last week, the machinery has about all been placed and in a short while the stamps will be put in motion.

The tubes on the Briar Patch canal will soon be completed. Mr. Hightower would have had them finished by this time but he got out of staves, liking only a few.

Adams, Johnson and others made a very satisfactory clean up at the Hand last week. They have a large vein stripped and get the ore to the mill at a nominal cost.

Mr. Pruitt could not make any thing contracting the shaft work at Crown Mountain and is now engaged for the Company. About five feet have been sunk in it in over two weeks work.

In reply to enquiry about the Southern Power Milling Co., will say that the president has been away for several days perfecting plans for the progress of the work, which we hope to be able to give in our next issue.

The McDonald Bros. have every thing in fine shape down at the Lockhart mine. For the first time they were able last week to wash the ore down to the mill from the cut, enabling them to handle it at a great deal cheaper than at any time heretofore.

The E. E. Crisson mine keeps improving. Mr. Crisson brought the gold in last Saturday for shipment. It was nicely burned off and weighed 235 pennyweights. This was made in one month with an average of two hands on a little wooden stamp mill.

Wm. Dotson is doing well at the Ivey mine. By the use of a giant he is cutting a drain under the old mill into new gravel, and has already found several right nice nuggets. The old works have paid and when new gravel is reached a much greater profit is expected.

Mr. Rogers, of the Battle Branch mine left last week to be gone a few days, but the work of cleaning out the canal, which is to convey water to the mine, moves right away under the direction of suitable superintendents with a large force of hands. Work has been suspended at the mine until the canal is completed so as to have a sufficient amount of water to operate it profitably. Mr. John Hutchison is in charge who has about 60 hands at work on the canal.

Mr. N. P. Riddell, vice-president of the Bunker Hill Gold Mining and Dredging Co., was in Dahlonega a short while last Tuesday on business and we made it convenient to see the gentleman and talk with him about the progress of things at Bunker Hill, and we are glad to say that he is well pleased with the mine, the results being already far better than he expected. He is in charge of the dredge and gives it his daily personal attention. When we asked Mr. Riddell if he ever found any nuggets he pulled a package from his pocket containing many nice ones of all shapes and sizes which he picked out of last Saturday's clean up, proving that there are very rich veins on the property which feed the Chestatee river with the vast amount of yellow metal that is now being dredged from its

Please Your Hair

Don't have a falling out with your hair. It might leave you! Then what? Better please it by giving it a good hair-food—Ayer's Hair Vigor. The hair stops coming out, becomes soft and smooth, and all the deep, rich color of youth comes back to gray hair.

"I was troubled greatly with dandruff until I used Ayer's Hair Vigor. It completely cured my dandruff and also stopped my hair from falling out. It serves me very nicely also in keeping my hair in any style I wish."
Miss MAGGIE COOK, Derby, W. Va.

SASSAPARILLA
PHILADELPHIA
CHERRY PECTORAL.

bed. The company owns the property on both sides of the river, being enough to encourage all parties interested in this mine, as some of these valuable feeders have already been discovered and others are bound to be found as the work progresses, and what adds still more interest to this mine they have honest men in charge of it. It's true that we have only been acquainted with Mr. Riddell only a few months but every step that he has taken since being in charge has been straight forward, in a business like manner. Soon after talking with Mr. Riddell he hunted up Mr. Dank Hollifield, the present treasurer of Lumpkin county, who is a native miner of many years experience in the business and has lived near this property all his life, and asked him about Bunker Hill, as it always gives us pleasure to talk about a good thing like every visitor says Bunker Hill is. Mr. Hollifield says my honest opinion is it is one of the best propositions in the country. The development work proves it. They have ample power to pull all the machinery. Have good roads all over the property. Many valuable veins have been exposed and the stratified formation will enable them to handle the ore very cheap.

Mr. J. T. Miller, the treasurer, who has been known to us for many years as being a man of honest dealings, is in charge of this work. Although Mr. Miller's experience is by no means limited, he never fails to listen to the advice of old miners. It is like educational matters, no one knows it all, and a man who is willing and knows how to carry out the best and most economical plans knows no such word as fail. In addition to this the company began right by adopting business principles to guide them by requiring the treasurer to give a good \$20,000 bond.

The woman who used to be known in Dahlonega as Tessie Owens, has gone down to Atlanta and created a heap of devilment by swearing out a warrant for her 17-year-old daughter's husband, causing him to be put under a thousand dollar bond for bigamy, besides striking her daughter with an umbrella during the trial. This made the girl mad. Then she went before a squire and swore out a warrant for her mother and had her put in jail, charged with having three husbands. Tessie confesses to this, saying that she first married Will Owens in Lumpkin county and was divorced from him, which is true. Then she married in Gainesville and her second husband died. Afterward finding the third husband in Atlanta named Moore. If her second husband is dead it was doubtless caused from grief, and her last one will soon wish he was dead too, unless Tessie has changed since she was here.

Out of 137 counties all the digests in Georgia have been sent into the comptroller's office except Glynn, and the aggregate gains, not including this county, are \$87,714,289.

The vagrancy law was amended by the recent legislature so that a convicted criminal may give bond, and the penalty for vagrancy is the same as any other misdemeanor.

Suches P. O. Canada, Ga.

Marshal John Downs has again paid his respects to Canada. This time to the Rev. Helton, who is a leading Baptist minister. Downs carried off the still of Helton. Some of Helton's friends think Downs should have taken gospel steps.

The summer flights are lively, numerous and interesting on the Williams creek. The ladies are taking a hand and some wool is being pulled. Little Henry and King both display poor marksmanship.

The King of Canada is busy with affidavits. They are his refuge.

One shiner has had his still stolen which was hid in a tree top. There are several revivals in progress. They are all doing good work.

We see a republican is taking a hand in the Banner. Now Mr. Republican, the modern up-to-date rascal, flies no black flag, emblazoned with no skull and cross bones, but comes with a smile and a grin. The sins of omission and commission are up-to-date, and in keeping with the times and environments.

School Board Grifters, who blackmail applicants for a new teachers position, are stabbing the free public school. And blackmail is piracy. And the factory labor of children is slavery. And the sale of whiskey, containing wood alcohol is murder. And tax dodging is larceny. And opposition to compulsory education—well, what is it like? It's like a man trying to commit suicide by cutting his throat with a tallow candle. And the sworn juror, who fails to prosecute through fear, or favor, or for the sake of office, or for getting votes for himself, or party is a perjured scoundrel and deserves being thrown out of the box, no dogs-kullery in this.

CANADIAN.

On Thursday of last week the boiler operating a planing machine, dressing lumber for the Concord High School in Hall county, blew up, scalding a negro to death and slightly injuring several white men.

Near Knoxville, Tenn., the other night Harvey Mize mistook his wife for a burglar and killed her with a pistol while she was letting a window down. The lady had no rock or pistol in her pocket and no arrest of the husband followed.

The house of representatives passed a bill last week authorizing the people to elect a state board of tax equalizers at the next general election. Comptroller Wright will appoint the members who will continue in office until their successors are elected.

Atlanta will have a twelve days running meeting at the GEORGIA STATE FAIR, Oct. 9-21st. J. W. Russell will be presiding judge; F. W. Gerhady, Starter and Frank Weldon, Secretary and General Manager. Mr. Gerhady, who is on the Canadian Circuit, writes that there will be plenty of horses.

Dalton's city council has decided to have barrens.

Local News.

Marshal Grizzle brought in a big still last Sunday, which he found in Chostate district. The collector was along, and with his axe, soon disfigured its appearance after arriving in Dahlonga.

Parties who attended Mossy Creek commencing from Dahlonga, inform us that there were more people present this year than had been since the war. And what is still better, everybody behaved themselves.

It was an interesting sight last Sunday to see that young woman hug and kiss a beautiful young man. Some women are so full of mischief! The young man disliked it but will not have her arrested for an assault.

Mr. John Jenkins, one of the road overseers, informed us last Monday that most of the hands on two roads had paid their communication tax, and with the few left, he has these public highways in better fix than they have ever been.

It has been reported to us that letters have been broken open and even misplaced at a certain country postoffice in Lumpkin county. It would be best for the postmaster to resign, if he cannot prevent his folks from doing this. We heard a man say last Monday that he would report it to the department if it ever occurred again. Take warning.

The season for big religious meetings is now on, and we hope that much good will be accomplished by those joining the church, making their religious thoughts permanent, but if any of them are joining just for a show in order to gain the confidence of some girl they are courting and to deceive her good father or mother, like we have known to be the case, they had better stay out of the church.

Our old friend and patron, Mr. F. S. Packard, will leave for his old home in Storres, Mich., in a few days. Mr. Packard says that he may return after a short while, but as he has sold out here the chances are that he will not come back any more. We got acquainted with Mr. Packard when he first arrived in this county several years ago and everything has always been very pleasant between us. Whether he returns or not, he has our best wishes.

A right little sum of money changed hands since our last issue in Dahlonga. It was not caused by any hand deal or anything of this kind, but by gambling. Just think of two church members and two outsiders sitting up Saturday and Monday nights, including Sunday, playing cards with money on the board! These two church members' names are in the grand jury box, and are men who are supposed to be opposed to gambling. Don't be guilty of it any more.

Almond Carroll, of White county, was bound over here this week by Judge Baker for illicit distilling. Some time ago a still was found near Jones Andersons by the revenue officers. Anderson was arrested and at the criminal trial, said that if he was given a little time he could prove that he had nothing to do with it. The time was given him, and Mr. Carroll came in and said that it was his and not Andersons, and thus the responsibility was placed upon him.

Maj. Tillson, who has been in charge of the military department of the N. G. A. College here, has been ordered to Port Thomas, Ky., and will take his departure in a day or so. Maj. Tillson has given his duties the closest attention, leaving no stone unturned when he saw a chance of being able to do something that would bring the college and students more prominently before the public. We learn that Capt. Williams, who inspected the cadets here last, has or will be appointed in Maj. Tillson's place.

The Lumber Company's new dam across the Hightower river will soon be done.

Mr. Arthur Sullivan and Miss Toluba Baker were married in Mill Creek district this week. Both of this county.

Capt. Watkins, who enlisted in the U. S. army from Kentucky, has been here for several days spending his 90 days furlough.

At the request of a number of our citizens, Miss Tackabury will give another recital at the college tonight. Admittance 15 cents.

The repairing of Yellow Creek bridge causes the mail on the lower route to be late on account of the carrier having to come round it, traveling farther.

From all accounts, there will soon be another wedding in Dahlonga. This time it will be a widow and widower. Both are old enough not to have to go through the season of love quarrels first.

We understand that a man passed Mt. Zion church, in this county, last Sunday night during services, and with a jug of liquor, treated all both old and young who desired to indulge, calling it vinegar, causing much racket. The next grand jury will not likely forget it.

There are no yellow jackets this year, but more rattlesnakes' pilots were never heard of before in this county. We have heard of numbers of these poisonous reptiles being killed already. Henry Edmonson like to have put his hand on one down at the Singleton mine one day last week while at work.

After being confined to his bed for many months, Mr. Asbury Free died in Dahlonga on Thursday night of last week at the age of 70. Mr. Free was a man that attended to his own business. He was a good man and never harmed a living soul. During the civil war he went to the front and fought for his country. Was poor, but straight forward and honest. His remains were placed at rest in the cemetery at Jones' Chapel, to which church he belonged nearly all of his life.

Some of the serenaders got so full of liquor last week that it went back on them, causing them to lose their supplies. Boys, you had better quit this right now. It is a rare thing for serenaders to go out without there is a well filled bottle in the crowd, which is generally emptied long before midnight, and then re-filled again. You can keep this drink from your parents for awhile but it will come out on you maybe when it is too late. We have been in serenades and know all about them.

Some New York parties are corresponding with a gentleman here now about the construction of a railroad from Dahlonga to some point so as to connect it with the outside world. Mr. Baldwin, of Savannah, Ga., also desires to extend his road from Gainesville to Dahlonga, wishing to secure the Price road, but General Warner having done some work on this line, wants several thousand dollars for what he has done, so we understand. As Gainesville doesn't care to be connected with Dahlonga by rail, the road to Rosville or some other point is preferable by our citizens.

Down at the Barlow mine on Wednesday night of last week, Mr. Manuel Garrett was bitten on the right hand by a rattlesnake's pilot. He was fixing to go down into the shaft at about 10 o'clock and reached under the electric battery to get a bottle of hartshorn, which the hands use on their clothing while blasting, to keep off the dynamite headache, when the serpent struck him on the knuckle, causing a severe pain. Manuel said it wouldn't have hurt worse had it been an iron spike driven through it. His wrist was bound with a wire and an application of onions and tobacco was applied to the wound which soon caused the swelling to leave and give him much relief.

The estate of H. F. Anderson is valued at a little over \$8,000.

U. S. Deputy Marshal Grizzle was up home on a visit last week.

Persons writing shingles should go or write to Hutchison Bros., Freda, Ga.

Mr. and Mrs. J. H. McKee, of Dawson county, spent a few days in our city last week.

Mrs. Isabel Abercrombie died in the eastern part of Lumpkin county last week, aged about 65.

A lot of nice photographs of the Fiddlers' Convention for sale at THE NEGRO office at 25 cents each.

If you need a two horse wagon, call on A. J. Anderson, Wier, Ga. They are made from home growth timber and ready for hard service.

Just received at this office twenty-five thousand envelopes and paper to go with them. Do you need any printed? If so, call or send.

Mr. and Mrs. John Wheelchel and Mr. Ross Thomas arrived in our city on a visit last week from Anniston, Ala. Also Mr. Smith, of that city.

W. H. Allen was caught up in White county last Friday by Marshal Grizzle while at work in an illicit distillery, who was brought to Dahlonga and bound over by Judge Baker.

Mrs. Reeves, of Atlanta, arrived in our city Thursday of last week, for a little recreation, and is stopping at Mr. Tom Smiths. Mrs. Reeves will be here about a couple of weeks, and longer, if her husband has a chance to come.

Com. Seabolt has already received the two badges that are to be offered for the best declamation made by a boy and girl during the Lumpkin county Oratorical contest which takes place in September. They are beauties and will make the successful winners feel proud.

Mr. T. V. Cantrell, of White county, was a welcome visitor to our office the other day. He has been down the country for six months building dams, bridges and saw mills for Mr. Jim Hall. He is at work at Loudsville camp ground this week, getting ready for the campmeeting.

Mr. J. H. Carter, after spending about a week in Dahlonga, took his departure last Friday. Mr. Carter is interested in nearly every bank in Northeast Georgia and has many invested in many other enterprises, not only in Georgia, but in North Carolina. He is energetic and public spirited, just what it takes to build up a country.

Last winter when the ground was covered in this section so long with snow and sleet and nearly everybody were out hunting, Messrs. Hutchison Bros., at Freda, Ga., sawed two hundred thousand shingles. These have already been put on the market. This shows what industry will accomplish, and it is useless to be crying out hard times. Prosperity will reach no one without work.

The young war seems to continue in Mill Creek district. We understand that Miss Baker headed off School Teacher Bryson the other day, with a big knife in her hand, saying that she was going to cut her way through. The trouble arose by the school teacher using the rod a few days ago, like they used to in those good old days when school teachers were always master of ceremonies when teaching a school.

We are glad to know that Mr. A. W. Menders, of Watkinsville, is school commissioner of this county. And that Prof. A. W. Carr, of Grapeland, Texas, is not only superintendent of the city public school, but is chairman of the board of examiners of Houston county. It always gives us pleasure to learn of any of Lumpkin county's old boys doing well, and there are many of them prospering, both far and near.

Miss Easter Wacaster and Benton Adams will represent Seven Mile school in the oratorical contest.

Dr. and Mrs. C. H. Jones have returned to Dahlonga after being absent several days on a pleasure trip.

Dahlonga was visited last week by an unusually cool wave for the season, lasting for three or four days.

But a few days until the doors of the N. G. A. College will be thrown open again. The 6th day of September is the time.

Mr. John Marr, formerly of Lumpkin county, but now of Jackson, was among the much welcomed visitors to our office last week.

We are ready to print Baptist minutes in good style upon short notice at reasonable figures. If you want your minutes printed in a week or ten days send us the job.

Upon receipt of the By-Laws we printed for New Bridge Lodge of Odd Fellows, the secretary sends the following note accompanied with the cash: "I am well pleased with the job."

Mr. D. M. Caldwell, while here this week in search of hands to work for the Blue Ridge Marble Co., presented us with a beautiful paper weight made from colored marble, which gift we appreciate very much.

The folks at Mossy Creek campmeeting have already finished singing, "It's the Old Time Religion." Now they are at it at Loudsville and Lumpkin camp grounds. Dahlonga will be represented at both camp grounds.

WANTED—Agent for rural mail boxes. The Bond Steel Post Co., Nashville, Tenn., wants to arrange with a wide-awake and reliable person to look after the sale of their rural mail boxes in this county. Here is the chance for the right party to make some money.

Some of the teachers are talking of having nice printed badges for the pupils of their schools to wear during the oratorical contest in Dahlonga on the second day of September. This would be nice, and if you want us to do the printing send in your orders and have it done nice and cheap.

Last Saturday about sundown "Long" John Anderson came into Dahlonga faster than he ever started to a singing school. He was hunting the City Marshal, stating that Tom McGee, Herchel Clements and Jasper Clements had been cursing and molesting him nearly all the way to town from near Mt. Gillard church where he had been conducting a singing school. Mr. Floyd Jones, of Jackson county, was with him, and he too got a part of the abuse. John said that one of the boys cast a stone in his direction and another caught his horse and held it by the bridle and would not let him resume his journey. That he was afraid of them because they would put their hands back to their hind pockets like they had a pistol; had a two gallon jug of liquor and so much in their stomachs that one pitched out of the buggy on his face and rose up minus a tooth, and they were on their way to a box supper at Hamp's Chapel to play the devil generally. It was a frightful time to hear John tell it and when he started to swear a warrant we came to our room and in the bed we lit and covered up head and ears. Next morning we learned that Marshal Walker had found all three in bed at Mr. J. B. Clements. An arrest was made and Mr. Clements came to town and signed his two sons appearance bonds and young McGee besides. On Monday McGee's case was settled by paying the cost. The others two boys had their trials before Squire Worley charged with an assault. They were acquitted. Then they had a trial before Mayor Baker and each were fined five dollars and cost for disorderly conduct, for what they did within the corporate limits.

Mr. Will McDonald was up this week from Alabama.

Mr. George Moore was up from Gainesville last Sunday.

Mr. and Mrs. Milt Loveless left last Sunday for Ophir, Ga.

Mrs. Marion Moose is here visiting her father and other relatives.

Mr. and Mrs. Frank Worley are up on a visit from Jackson county.

Mrs. Haden was found to be a subject for the asylum here last Tuesday.

Misses Iola and Gennet Wheelchel are among the visitors here from Anniston, Ala.

Councilman Tom Smith has been confined to his room for a few days on account of sickness.

Mr. Anderson Head is going to move to Dahlonga next week and occupy Dr. Wheelchel's residence.

Mr. J. M. Aldman, of Conyers, Ga., who attended college here fourteen years ago, is back on a visit.

Mrs. W. H. C. Tate dropped a large churn of milk on her foot the other day and almost mashed her toes off.

Miss Eunice Fitts and Grady Fitts will represent the Ashley school in the oratorical contest here on the 2nd of September.

Rev. J. E. Blackburn is conducting a very interesting meeting at night over at the Ashley school house, and the best of order prevails.

Mrs. Gann, of Brunswick, Ga., has been in our city for a short time, together with her two sons, for the purpose of recuperating their health.

Prof. R. E. Parks, of the State University, arrived in our city last Tuesday. He is traveling around for his health until the University opens again.

Dr. and Mrs. Cavender, of Hall county, spent a day or two in our city this week. They will move here the first of September and occupy the Anstead house.

The speakers selected to represent Nimbewill academy in the contest at Dahlonga on the 2nd day of September, are Frank Fitts and Miss Mamie Fitts.

Mr. W. M. Rice is up on a few days visit from Milner, Ga., this week. Mr. Rice was born and raised in Dahlonga, and although he has been gone away from here many years, it is always a great pleasure for him to get to visit Dahlonga, and we all like to see him come.

Messrs. W. H. Jones and M. G. Head have returned from a visit to South Georgia. Mr. Jones says that it is a good country but he is not ready to move yet. Mr. Head may locate there. In reading a South Georgia paper this week we noticed an advertisement of a gentleman who wished to sell out, showing that he is displeased and wishes to go some where else.

A great many of our readers are aware that we have a man some forty-five or fifty years of age living in this county who never wore a hat in his life. It is Lincoln Wehant, who married not long ago. Matters not how hot or cold it is he takes the weather bareheaded, and never speaks a word to anybody unless it is to the person who comes to town with him to sell his produce for him. Although he has strange ways, he knows how to make and save money, loaning it out to responsible persons very often. His brother said, while in Dahlonga the other day, that he was strictly temperate. Never uses any coffee, tea or sugar and has all his clothes manufactured at home, not spending more than five dollars per annum for anything. When asked why Lincoln didn't wear a hat, his brother said while a boy his father went to market and brought Lincoln back a hat. Some of the mischievous girls got hold of it first, put it on and wanted to kiss its owner. It made Lincoln mad and he swore right there that he would never wear a hat and he has always kept his word.

Applicants for Pensions.

The following persons have put in their claim for pensions in Lumpkin county this year up to date, who have not drawn heretofore:

INDIGENTS.
Samuel Porter.
George Burns.
Jacob T. Loggins.
W. T. Bryson.
James M. Robinson.
Dr. N. F. Howard.
Henry Davis.
John C. Ferguson.
WIDOWS.
Nancy Holeman, wife of Richard Holeman.
Rebecca J. Bishop, wife of D. G. Bishop.
Julia A. Anderson, wife of William M. Anderson.
Susan Cooper.

PROGRAM.

Oratorical Contest, Lumpkin County Public Schools, Saturday, Sept. 2nd, 1905.

At 10:30 a. m., the foot races will begin. The boys of the public schools only will be allowed to take part in the races.

The races will be divided into 3 divisions, as follows:

First division—For boys from 14 to 18 years of age.
Second division—For boys from 10 to 14 years of age.
Third division—For boys from 6 to 10 years of age.
Distance to be run—100 yards.
Prizes will be given to the one in each division who runs the required distance in shortest time.
The races will be on the streets of Dahlonga.

The remaining part of the exercises will be held at the City park.

EXERCISES AT THE PARK.
The schools will unite in singing the old patriotic song, "America," to be found in "Gradual Literature 2nd Reader." After the song, Dr. G. R. Glenn will deliver an address.

Adjourn for dinner.

At 1:00 p. m., the schools will go into the contest for the gold medals, which will complete the days exercises.

Everybody invited to come out, bringing with them their baskets filled with dinner and help to encourage the children in their new undertaking.

D. S. STARR,
J. A. LANCE,
MISS LULA HIGGINS,
J. J. SEABOLT,
Com. on Arrangements.

The house passed a bill by Senator Lumsden, of the thirty-second, to permit militia districts which have had the stock law in effect for a period of nine years, to hold an election on the question of fence or no fence. This is different to what we first thought it was. It is a good and just law. This will give some of the districts in Lumpkin county a chance to vote it out pretty soon.

One day last week Mrs. John Cook, who resides just beyond the corporate limits, heard something troubling her hen and little chickens under the floor. She raised a plank and lifted up the chicken and found a large rattlesnakes' pilot coiled around the hen's legs, having a little chicken in its mouth. It is useless to say that Mrs. Cook dropped the hen.

Mr. F. E. Bowens card, will appear in our next issue.

Services were held by both factions of the Mt. Lebanon church Sunday before last. It is thought that J. J. Gilreath and "Lady Jane" will try their "flirt" in a protracted meeting in behalf of the majority. Success to you both.

May "Doubling" cut the "pigeon's wing" at every meeting and forget the naughty deeds of his earlier days, such as, the scraping of the copper plates for the yellow metal when he was night-guard.

Oh! ye sabbath school superintendent who is also the postmaster at Quebec. I say unto you, touch not, handle not, pull not off one of Uncle Sam's mail-bag-gals.

Yes, Skifflets, I will tell you what the boys call Dugkullery: The majority of the Mt. Lebanon church have elected a man to represent them in the Chestnut association who curses; another who attempts to rape. Now when one of these men curse out that association and the other rapes it, that will be Dugkullery.

SCAPEWELL.

Now that Dr. Oler has said that freckled girls are the most amiable and therefore the best to marry, why doesn't some enterprising department store advertise a bargain sale of camels-hair pencils and rust-colored paints?

B. R. MEADERS & SONS.

ONE PRICE SHORT PROFIT. CASH.

Registered Jersey Cows For Sale

AT THE

Queen of the Mountains.

My breed of thorough bred Jerseys is growing beyond my wants and I would sell several very fine milk cows at reasonable prices as soon as the hotel closes this fall.
HENRY P. FANOR,
Porter Springs, Ga.

Georgia, Lumpkin County.

To all whom it may concern: Mary M. Findley having in proper form applied to me for permanent letters of administration on the estate of Thomas H. Parrish, late of said county, deceased. This is to cite all and singular, the creditors and next of kin to Thomas H. Parrish, to be and appear at my office on the first Monday in September, 1905, and show cause, if any they can, why permanent administration should not be granted to Mary M. Findley of said county, on Thomas H. Parrish's estate.

Witness my hand and official signature, this Aug. 8, 1905.
G. G. EVANS, Ordinary.

Georgia, Lumpkin County.

To all whom it may concern: Harvey Huley, having in proper form applied to me for permanent letters of administration on the estate of George Chapman, late of said county, this is to cite all and singular, the creditors and next of kin of George Chapman to be and appear at my office on the 1st Monday in September, 1905, at 10 o'clock a. m., and show cause, if any they can, why permanent administration should not be granted to The County Administrator of said county, on George Chapman's estate.

Witness my hand and official signature, this 7th day of August, 1905.
G. G. EVANS, Ordinary.

Observations Along the Way.

MR. EDITOR:

After two weeks' travel in and through a part of six counties in North-east Georgia, we desire to say a few things through your columns, with permission, about what we saw and heard along the way.

Crossing Chattahoochee river at Rogers' ferry, we next found ourselves at the residence of a Mr. Bell, where we found a supply of Georgia watermelons ready sliced up. Being invited to partake, we took a slice and then repaired to the church on the hill, where the Rev. McCreyer was beginning a series of meetings. There we met our old friend and comrade in arms, Tolison Loftis, of Co. E, 22nd Ga. Volunteers, whom we had not seen since the war of the sixties, and of course, we had a hearty hand shaking, and talked of the past and present, after the services. We dined at the home of another Mr. Bell, father of the above mentioned, a good citizen and christian gentleman.

We then turned towards the Blue Ridge (the mule and me) hot, dry and dusty. Many were despondent over the possible shortage in crops, here and there. Still, we found very fine crops of corn and cotton along the way, especially in that part of Milton and Forsyth counties, through which we passed.

We really have seen no cause for alarm anywhere. Those who remember 1865-6, will bear witness to the truth of the statement that there has been no hard times since to compare with that time, and yet some people complain louder now than the people of that day. And Why? Because like the Georgia mule, "The fatter he is, the higher he kicks."

Lumpkin and White counties have the most unfavorable crop prospect of any we have visited, and they have some good crops, and no other failures that we heard of.

All along the entire route there were signs of prosperity and improvement generally. Better and neater dwellings in nearly every well-to do home. The latest style furniture, pictures on the walls. An organ or other musical instrument. Labor saving machines everywhere. We counted six new well fixtures in one and a half miles drive, at \$17.00 each, and saw others in transit. There are better school houses and church buildings. Some of them furnished with organs. One with a bell in White county, in the country, and there may be others.

Everywhere we stopped there was corn in the crib; home raised bacon, and plenty of good things to eat. What lack we yet? More of the "Old time religion"—that's all.

And now lest we weary ye editor and the readers, we conclude this article, by saying we were glad to be in your city once more to meet many old friends. Among them, Dr. Howard, who, though blind, is still cheerful and communicative. We commend the county and the fraternity of which he is an honored member and citizen, for their ministry to him in his decline.

Last, but not least, we had the honor to be present at the ruby wedding and family re-union of our friend and brother, Fuller Miles, of white county; an on joyable occasion of which we cannot speak now.

Then began the home stretch, and the rains descended and the floods came; the winds blew and the mud flew. But thanks to providence and the faithful mule, we made the landing safe at home.

Yours, &c.

A. F. N.

Mrs. John Mellow, of Berkeley, Cal., aged 40, has been married twice and is the mother of twenty-five children in thirty years, twelve boys and thirteen girls, among them seven pairs of twins. Some of the children have black eyes and some blue.

On a train connection last week, John Sweeney, a brakeman, fell from a train of moving cars, but his finger ring caught on a nail in the side of a car and he was held that way, imminent danger of falling to his death for ten miles before his position was discovered and his position was discovered and help arrived. The only injury was a dislocated finger.

Cobb county has some eighteen cases of smallpox, says the board of health.

NOTICE.

IF you need any Monuments or Tombstones please write me at Ball Ground, Ga., and get prices before purchasing.

B. F. WILLINGHAM.

Georgia, Lumpkin County.

To all whom it may concern: Sallie E. Christian, having made application to me in due form to be appointed permanent administratrix upon the estate of Samantha Christian, late of said county, notice is hereby given that said application will be heard at the regular term of the court of ordinary for said county, to be held on the first Monday in September, 1905. Witness my hand and official signature, this 7th day of Aug., 1905.
G. G. EVANS, Ordinary.

Georgia, Lumpkin County.

To all whom it may concern: B. F. Anderson, Jr., having in proper form applied to me for permanent letters of administration on the estate of Henry F. Anderson, late of said county, this is to cite all and singular, the creditors and next of kin of Henry F. Anderson to be and appear at my office on the 1st Monday in September, next, by 10 o'clock a. m., and show cause, if any they can, why permanent administration should not be granted to B. F. Anderson, Jr., on Henry F. Anderson's estate.

Witness my hand and official signature, this 7th day of August, 1905.

North Georgia Agricultural College, A State Institution, Dahlonega, Ga.

Write to G. R. GLENN, for Catalogue and any information.

Dahlonega Graded School.

DAHLONEGA is one of the best Educational Centers in the state. In addition to the Agricultural College we have a well graded public school system.

FREE TO EVERY CHILD

who is a citizen of the town. People who have little children to be educated cannot find a better location. Rents are cheap and the cost of living moderate. Why not move here to give your children a nine months school term instead of having a short term of two or three months as you now have? The children who complete the course in the graded school enter college here without additional examination.

W. L. ASH, Principal.
